For more details see the [Custom Stock Status](#) extension page.

# Guide for Custom Stock Status

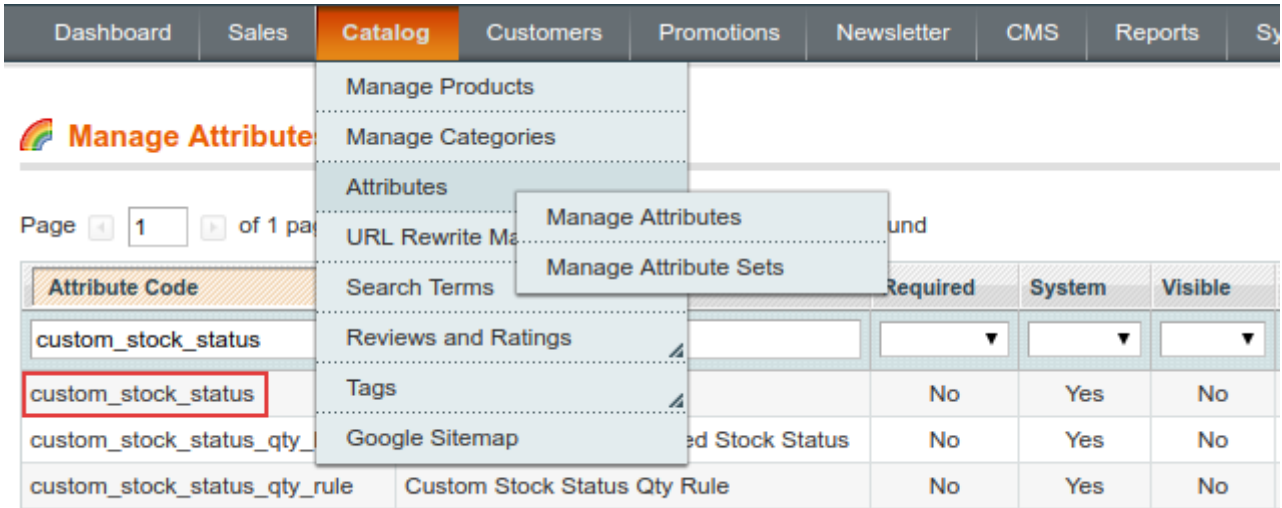

Use catchy stock statuses to engage your customers more and increase conversions.

- Create unlimited number of product stock statuses
- Assign stock statuses to products automatically or manually
- Display out of stock options of configurable products
- Use nice-looking icons for stock statuses
- Display stock statuses based on product quantity

## Create a custom stock status

To create a new custom stock status or edit the existing one:

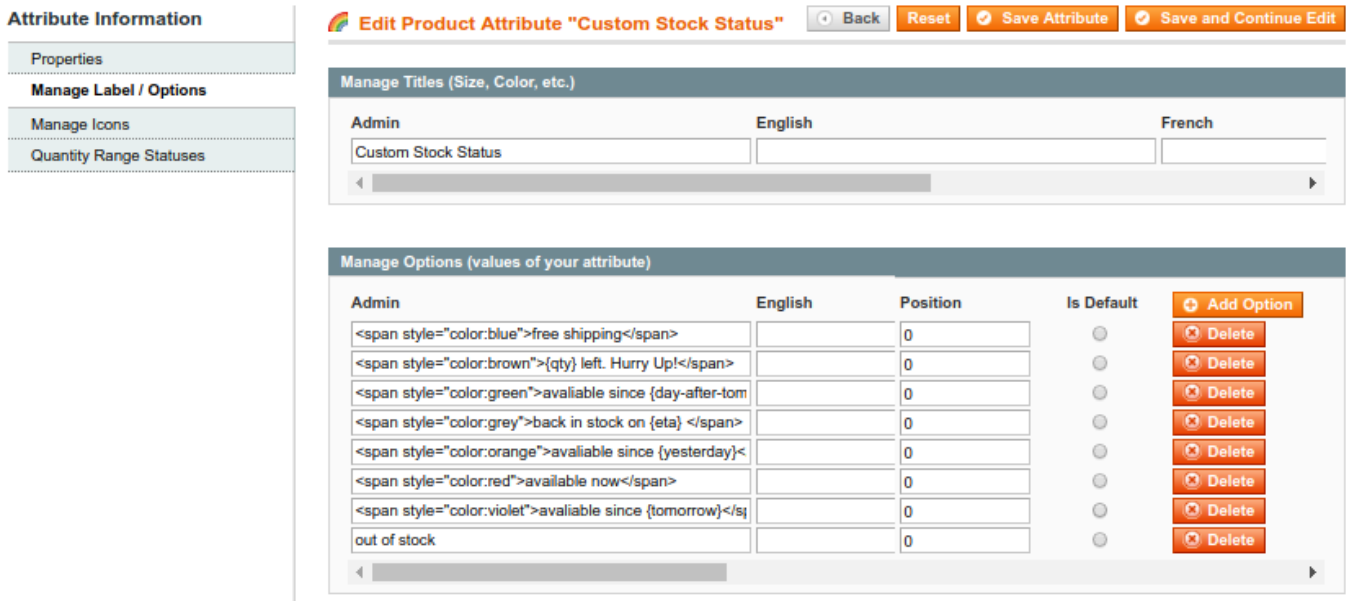

- Navigate to **Admin panel - Catalog - Attributes - Manage Attributes**;
- Find **Custom Stock Status** attribute and click on it to edit it.

Follow the [GDPR](#) legislation requirements with this flexible Magento extension.

### Manage Label / Options

- In the **Manage Label / Options** tab, create the desired options for the **custom\_stock\_status** attribute

- If you would like to display current product quantity in some stock status, use **{qty}** variable, for example: *Only {qty} left in stock!*
- You can use **{yesterday}**, **{tomorrow}**, **{day-after-tomorrow}** variables to display precise dates.
- You can use any *Text field* and *Date* product attributes in custom stock statuses. To do this please add code of the attribute to the status like this, e.g. Back in stock on **{eta}**.
- Use basic html e.g. **<span style="color:red">** to highlight statuses

## Manage Icons

- In the **Manage Icons** tab, upload images for the custom stock statuses you need.

**Attribute Information**

- Properties
- Manage Label / Options
- Manage Icons**
- Quantity Range Statuses

### Edit Product Attribute "Custom Stock Status"

[Back](#) [Reset](#) [Save Attribute](#) [Save and Continue Edit](#)

#### Manage Icons [Update Icons](#)

Status Label	Upload icon image	Preview	Delete
out of stock	<input type="button" value="Choose File"/> No file chosen		<input type="checkbox"/>
available since {tomorrow}	<input type="button" value="Choose File"/> No file chosen	[none]	<input type="checkbox"/>
available now	<input type="button" value="Choose File"/> No file chosen		<input type="checkbox"/>
available since {yesterday}	<input type="button" value="Choose File"/> No file chosen	[none]	<input type="checkbox"/>
back in stock on {eta}	<input type="button" value="Choose File"/> No file chosen	[none]	<input type="checkbox"/>
available since {day-after-tomorrow}	<input type="button" value="Choose File"/> No file chosen	[none]	<input type="checkbox"/>
{qty} left. Hurry Up!	<input type="button" value="Choose File"/> No file chosen		<input type="checkbox"/>
free shipping	<input type="button" value="Choose File"/> No file chosen		<input type="checkbox"/>

Once you've browsed icons for the stock statuses, click *Update Icons* button, otherwise the icons won't get uploaded.

## Quantity Range Statuses

- If you would like the statuses to change automatically based on how many items of a product are left in the inventory, create quantity ranges and assign the necessary statuses to the ranges.
- If you choose to use range based stock statuses when editing a product, the stock status will change automatically once the product quantity changes.

- Attribute Information
- Properties
- Manage Label / Options
- Manage Icons
- Quantity Range Statuses

**Edit Product Attribute "Custom Stock Status"**

Back Reset Save Attribute Save and Continue Edit

**To make the Quantity Ranges more specific and/or use various rules for different products, please enable the following setting System -> Configuration -> Custom Stock status -> Activate Rules For Quantity Range Status.**

Quantity From	Quantity To	Custom Stock Status	
0	0	out of stock	[ delete ]
1	30	{qty} left. Hurry Up!	[ delete ]
31	100	free shipping	[ delete ]
101	1000	available now	[ delete ]
		out of stock out of stock available since {tomorrow} available now available since {yesterday} back in stock on {eta} available since {day-after-tomorrow} {qty} left. Hurry Up! free shipping	[ delete ]

[Add New Range Status](#)

You can also see Stock Status Rule column. With its help you can specify different quantity levels for the same statuses for different groups of products. E.g. you can show the same status *Running out* for *Product A*, when it has quantity from 1 to 5 and for *Product B*, when it has quantity from 1 to 100.

### Rules for quantity ranges

Go to **Catalog → Attributes → Manage Attributes** and open attribute *Custom Stock Status Qty Rule*.

At the **Manage Label / Options** tab, create one rule for each product group, for which you will use different levels of stock. E.g. **electronics\_rule** and **books\_rule**.

**Edit Product Attribute "Custom Stock Status Qty Rule"**

Back Reset Save Attribute Save and Continue Edit

**If you do not specify an option value for a specific store view then the default (Admin) value will be used.**

**Manage Titles (Size, Color, etc.)**

Admin	English	French	German
Custom Stock Sta			

**Manage Options (values of your attribute)**

Admin	English	French	German	Position	Is Default	
electronics_rule					<input type="radio"/>	Add Option
books_rule					<input type="radio"/>	Delete

You only need to specify a rule name at this page. Once you have created the rules here, go to [Quantity Range Statuses](#) and specify ranges for each rule.

Stock Status for Quantity Range			
Quantity From	Quantity To	Custom Stock Status	Stock Status Rule
<input type="text" value="-1000"/>	<input type="text" value="1000"/>	Only {qty} left! ▼	first_rule ▼
<input type="text" value="-1000"/>	<input type="text" value="1000"/>	Coming soon! ▼	third_rule ▼
<input type="text" value="-1000"/>	<input type="text" value="1000"/>	Available in 2 weeks! ▼	second_rule ▼

[Add New Range Status](#)

- first\_rule
- second\_rule**
- third\_rule

Please, also enable the following setting **System** → **Configuration** → **Custom Stosk status** → **Activate Rules For Quantity Range Status**

## Manage stock statuses for a product

Go to **Admin Panel** → **Catalog** → **Manage Products** and select the desired product to configure custom stock status it.

**Plaza Platform (Shoes)**

**General** Create New Attribute

Name *	Plaza Platform	[STORE VIEW]
Description *	Two strap leather with perforation and rhinestone details. Contrast leather lining. Gold and brown dyed espadrille and leather wedge 4.5" heel 1.5" platform .3" equiv	[STORE VIEW]
Short Description *	With a 1" platform, our towering sandal wedges make walking in heels just a little easier	[STORE VIEW]
SKU *	shw002	[GLOBAL]
Set Product as New from Date		[WEBSITE]
Set Product as New to Date		[WEBSITE]
Status *	Enabled	[WEBSITE]
URL Key	plaza-platform	[STORE VIEW]
	<input checked="" type="checkbox"/> Create Permanent Redirect for old URL	
Visibility *	Catalog, Search	[STORE VIEW]
Country of Manufacture		[WEBSITE]
Custom Stock Status	out of stock	[GLOBAL]
Hide Default Stock Status	No	[GLOBAL]
Use Quantity Ranges Based Stock Status	Yes	[GLOBAL]
Custom Stock Status Qty Rule		[GLOBAL]

**Custom Stock Status** - edit the product(s), for which you need to use the custom stock status and choose the appropriate status at the **General** tab.

#### Hide Default Stock Status:

- To display the custom status instead of the default one, choose *Yes* for the *Hide Default Stock Status*.
- To display the custom status together with the default one, choose *No* for the *Hide Default Stock Status*.

**Use Quantity Ranges based Stock status** - If quantity based statuses are used, the status will change based on available quantity. If there's no such range (e.g. you have 1000 items and the biggest range is 50-100), manually indicated status will be displayed.

**Custom Stock Status Qty Rule** - Use *Custom Stock Status Qty Rule* setting to choose which quantity rule should apply to this product.

## General settings

To configure Custom Stock Status extension, go to **Admin Panel → System → Configuration → Amasty Extensions → Custom Stock Status**.

**Display Custom Stock Status for out-of-stock items only** - It is possible to display custom stock statuses only for “out of stock” products.

To enable this mode, go to **System > Configuration > Catalog > Custom Stock Status** and change *No* to *Yes* and click *Save Config* button.

**Allow for Customer Group** - You can display custom stock status for particular customer groups only. Use multiselect to specify the groups you want to display stock status to.

General		
Display Custom Stock Status On Product List Page	Yes ▼	[STORE VIEW]
Display Custom Stock Status in Shopping Cart	Yes ▼ ▲ Will display custom stock status for items in shopping cart.	[STORE VIEW]
Display Custom Status on Order Grid and Customer Account	No ▼	[STORE VIEW]
Display Custom Status In Order Confirmation Email	Yes ▼	[STORE VIEW]
Display Custom Stock Status for 'Out of Stock' Items Only	No ▼ ▲ If set to 'No', custom stock status will be visible both for 'in stock' and 'out of stock' items.	[STORE VIEW]
Allow for Customer Group	ALL GROUPS ▲ NOT LOGGED IN General Wholesale VIP Member Private Sales Member	[STORE VIEW]

**Use Quantity Ranges Based Statuses Only** - If you would like to use only automatic, range based statuses, set this option to *Yes*.

**Display Icons Only** - To display only icons for stock statuses (without text), set this option to *Yes*.

Use Quantity Ranges Based Statuses Only	<input type="text" value="No"/>	[STORE VIEW]
	▲ If set to 'No', custom stock status set for product will show up if no range status found for particular product.	
Activate rules for Quantity Range Status	<input type="text" value="No"/>	[STORE VIEW]
	▲ Please configure the Quantity Rules here: Catalog-> Attributes -> Edit 'Stock status Rules'	
Display Icon Only (No Status Text)	<input type="text" value="No"/>	[STORE VIEW]
	▲ Display only icon and no custom status text on the product view and product list pages.	
Enable 'Back In Stock' Alert for Out of Stock Configurable Items	<input type="text" value="Yes"/>	[STORE VIEW]

Use **Status Icon Title Text** field to specify the text that will be displayed when customers hover mouse over a status icon (you can leave it empty).

Show Out of Stock Configurable Attributes	<input type="text" value="Yes"/>	[STORE VIEW]
	▲ If set to 'Yes', out of stock configurations will be displayed in the drop-downs of configurable products with no possibility to purchase.	
Status Icon Title Text	<input type="text" value="{qty} left in stock."/>	[STORE VIEW]
	▲ The text that will appear on mouse over a status icon image.	
Change Default Configurable Product Status	<input type="text" value="Yes"/>	[STORE VIEW]
Automatically select attributes that have one single value	<input type="text" value="No"/>	[STORE VIEW]
	▲ On the product view page, automatically select configurable attributes that have only 1 value available in the drop-down.	

## Samples

The extension lets you display out of stock configurable options as well (add to cart button will not be displayed, when they are chosen). Also for **out of stock** configurations stock statuses are displayed right in the dropdown (both standard and custom statuses). For configurable products the custom status is displayed above the **Add to Cart** button.
