# Guide for Customer Group Catalog

Adjust products and categories visibility by groups of customers. Hide or display prices for products and categories, remove links, and set the required redirect according to your business needs.

- Provide selective access to catalog pages
- Hide price and 'Add to Cart' button
- Place custom CMS-block instead of price
- Hide product and category links
- Redirect visitors to custom CMS-pages or show 404 error for products

## Extension Configuration

To configure the extension please go to **System → Configuration → Customer Group Catalog**.

The screenshot shows the Magento Admin Panel interface. At the top, there's a navigation bar with 'Catalog', 'Customers', 'CMS', and 'System' (highlighted). Below this, the 'Customer Group Catalog' configuration page is displayed. On the left, there's a sidebar with 'Configuration' and 'AMASTY EXTENSIONS' sections. The main content area is titled 'Customer Group Catalog' and contains two sections: 'General Settings' and 'Prototype-like CSS selectors (advanced options for custom templates)'. In the 'General Settings' section, 'Enable Customer Group Catalog' is set to 'Yes'. The 'Prototype-like CSS selectors' section contains a table with 10 rows, each representing a different UI element and its corresponding CSS selector.

Configuration Item	Value	Action

Replace with CMS Block on Product List	notfound

In the **Restriction Action** section you can choose the actions which will apply to the products and categories you've selected before:

**Remove Product Links** — turn to **Yes** and all links to product pages you've previously ticked in the **Product Access Restriction** tab will be removed from the store. Customers won't see the product items at category lists, in the list of products, etc;

**Remove Category Links** — set to **Yes** and links to all categories, chosen at the **Category Restriction** tab will be removed from the menu for the specified customer groups;

**Allow Direct Links** — set to **Yes** to allow customers to visit restricted product pages using the direct links to product pages;

Set this option to **No** in case you want to redirect customers to CMS pages instead of using direct links. Also, you can choose **404 Page** or any other custom CMS page to redirect customers to. To create a new CMS page please go to **CMS → Pages**

**Hide Price and Add to Cart** — it is possible to hide both price and the **Add to Cart** button at product list and product view pages. This way customers can see products and read descriptions but won't have the opportunity to add them to cart;

**Replace with CMS Block on Product View** — replace price and the **Add to Cart** button with any custom CMS block for product view pages;

**Replace with CMS Block on Product List** — replace price and the **Add to Cart** button with any custom CMS block for product lists.
