For more details see how the [Extra Fee](#) extension works.

# Guide for Extra Fee for Magento 2

Add extra fees to any additional services you need and display them on the checkout and shopping cart pages. With flexible conditions and advanced settings, you can display relevant fees to customers and encourage them to spend more.

- Generate an unlimited number of extra fees
- Display fees on cart and checkout pages
- Create extra fees based on payment and shipping methods
- Determine fees display with flexible conditions
- Use percent and fixed price fee types

The extension is read and write **GraphQL compatible**. Now you can expose and mutate the datasets in Extra Fee extension for Magento 2 via GraphQL queries.

Magento 2 Extra Fee extension is compatible with **GraphQL Application Server**. You can find the **amasty/module-graphql-application-server-compatibility** package for installing in composer suggest.

---

In [Extra Fee FAQ](#) you can find answers to the most popular questions about the extension functionality.

---

Magento 2 Extra Fee extension is compatible with Hyvä themes. You can find the 'amasty/module-extrafee-hyva' package for installing in composer suggest (Note: the compatibility is available as a part of an active product subscription or support subscription).

The extension is compatible with **Hyvä Checkout**. Provided in one package with the Hyvä Theme, you can find the 'amasty/module-extrafee-hyva-checkout' package for installing in composer suggest (Note: the compatibility is available as a part of an active product subscription or support subscription).

## General Extension Settings

To configure general extension settings please go to *Stores → Configuration → Amasty Extensions → Extra Fee*

### General

## General

**Show On Order Grid**  
[store view]  ▼

**Show On Order Grid** - set to 'Yes' to allow fees display on the Order Grid.

## Calculation

In this section, you can configure on scope level the way your fees will be calculated.

## Calculation

### Include Discounts in Calculations [store view]

 ▼

Select 'Yes' if you want to calculate the extra fee based on the prices with discount amounts (only for percent fee type)

### Apply Tax Class to Extra Fees [store view]

 ▼

Set whether Extra Fee calculations should include or exclude taxes. If 'Yes':

- for the 'Fixed Fee' type the 'Fee Tax Class' option will always be applied;
- for the 'Percent Fee' type, you should choose between 'Product Tax Class' or 'Fee Tax Class' options.

### Use Fee's Tax Class Instead of Product's Tax Class for Percent Fees [store view]

 ▼

Set 'Yes' if you want to override 'Product Tax Class' configuration by specific 'Fee Tax Class' setting for Fee calculation purposes.

### Use Product's Shipping Cost as Product Price Part for Calculations [store view]

 ▼

Select 'Yes' if you want to calculate the extra fee based on the prices with shipping costs (only for percent fee type)

**Include Discounts in Calculations** - select 'Yes' if you want to calculate the extra fee based on the prices with discount amounts (only for percent fee type).

**Apply Tax Class to Extra Fees** - select 'Yes' if you want to calculate the extra fee based on the prices with taxes. Please kindly note that, for the 'Fixed Fee' charges, the tax class option will always be applied. For 'Percent Fee' charges, please configure the setting below.

**Use Fee's Tax Class Instead of Product's Tax Class for Percent Fees** - enable this option to 'Yes' to set different tax class for percent fees.

**Use Product's Shipping Cost as Product Price Part for Calculations** - select 'Yes' if you want to calculate the extra fee based on the prices with shipping costs (only for percent fee type).

Also, you can tweak the calculation for each specific fee. To do that, please proceed with the [Extra Fees Creation: Calculation](#) part of the User Guide.

## Tax

In this section, you can adjust the tax class for extra fees.

### Tax

<b>Tax Class</b> [store view]	<div style="border: 1px solid #ccc; padding: 5px;"><div style="background-color: #f0f0f0; padding: 2px;">Taxable Goods <span style="float: right;">▼</span></div><div style="padding: 2px;">None</div><div style="background-color: #0070c0; color: white; padding: 2px;">Taxable Goods</div><div style="padding: 2px;">Refund Adjustments</div><div style="padding: 2px;">Gift Options</div><div style="padding: 2px;">Order Gift Wrapping</div><div style="padding: 2px;">Item Gift Wrapping</div><div style="padding: 2px;">Printed Gift Card</div><div style="padding: 2px;">Reward Points</div></div>
<b>Display Prices at Shopping Cart</b> [store view]	<div style="border: 1px solid #ccc; padding: 5px;"><div style="background-color: #f0f0f0; padding: 2px;">Including and Excluding Tax <span style="float: right;">▼</span></div></div>
<b>Display Prices at Orders, Invoices, Credit Memos</b> [store view]	<div style="border: 1px solid #ccc; padding: 5px;"><div style="background-color: #f0f0f0; padding: 2px;">Including and Excluding Tax <span style="float: right;">▼</span></div></div>

This feature is highly important for EU tax laws compliance. Adjust this setting according to local tax laws. Learn more about EU Tax Guidelines on [official Magento website](#).

**Tax Class** - specify the tax class for the extra fees. If you haven't had the special tax class for your extra fee - you can create it in *Stores → Taxes → Tax rules → Add new tax rule*. If set to **None**, the tax won't be calculated.

Then, choose whether to include or to exclude the tax into fees calculation display for **Display Prices at Shopping Cart** and **Display Prices at Orders, Invoices, Credit Memos** options.

If the setting is set to **Include Tax**, then taxes will be included in the cost of the initial fee. For example, if the fee amount is \$10, Tax=10%, then the Fee Amount visible for the end-user will be \$9.09 Fee + \$0.91 Tax. In Order Total it will be shown as \$10.

If the setting is set to **Exclude Tax**, then taxes will be excluded from fee calculation. For example, the Fee Amount is \$10, Tax=10%. Then, an end-user will see Fee Amount of \$10 Fee + \$1 Tax. In Order

Total it will be shown as \$11.

## Frontend

In this section, you can adjust the display of Fees on the Shopping Cart page.

### Frontend

Show On Cart Page  
[store view]

Yes

**Show On Cart Page** - set to 'Yes' to display fees on Shopping Cart.

---

## Extra Fees Creation

### Extra Fees Grid

To create extra fees please go to *Stores* → *Extra Fee* → *Fees*

Description

**Name** - Specify the name of the extra fees block, that will be displayed on the frontend.

**Enabled** - Set 'yes' to enable the fee.

**Mandatory to select** - set to 'Yes' to make the fee truly mandatory. If the customer cart is eligible for a mandatory fee, a customer cannot proceed to the next step without selecting at least one option per mandatory fee.

**Eligible for Refund** - set to 'Yes' to allow fee refund in the future.

**Type** - Select the input type for fee options that will be displayed on the frontend. You can choose 'Dropdown', 'Checkbox', or 'Radio Button' types.

**Sort Order** - Specify the options' sorting order on the frontend ('zero' is the highest position).

**Description** - Specify an additional description that will be displayed on the frontend.

**Conditions**

Calculation

## Conditions (don't add conditions if need all products)

If **ALL** of these conditions are **TRUE** :

Shipping Method is

- DHL**
  - [dhl] Customer services
  - [dhl] Easy shop
  - [dhl] Jetline
  - [dhl] Express easy
  - [dhl] Express worldwide
  - [dhl] Medical express
  - [dhl] Express 9:00
  - [dhl] Freight worldwide
  - [dhl] Economy select
  - [dhl] Jumbo box
  - [dhl] Express 10:30
  - [dhl] Europack
  - [dhl] Express 12:00
- Federal Express**
  - [fedex] Europe First Priority
  - [fedex] 1 Day Freight
  - [fedex] 2 Day Freight
  - [fedex] 2 Day
  - [fedex] 2 Day AM

Create rules based on active shipping and payment methods. Once a customer chooses the specified shipping or payment method, the fees block with custom options is displayed.

## Calculation

### FEE INFORMATION

- General
- Options
- Stores & Customer Groups
- Conditions
- Calculation**

### Percent Fee Calculation

**Include discount in subtotal**

Select 'Yes' if you want to calculate the extra fee based on the prices with discount amounts (only for percent fee type)

**Include shipping in subtotal**

Select 'Yes' if you want to calculate the extra fee based on the prices with shipping costs (only for percent fee type)

You can choose to include discount and shipping subtotals into the fee for each particular rule. If the options are set to 'Default', parameters for calculation will be taken from the General extension settings.

### Fee Calculation Applicability

Apply Fees for

**Only products with attributes selected below will be counted for this Fee calculation (leave blank for all Items)**

Percent based Fees are being calculated using eligible products' Subtotal as a base. Fixed Fees use eligible products' quantity while 'Per Product' is enabled.

If ANY of these conditions are TRUE :

- SKU is 24-UG01, 24-UG05, 24-UG02, 24-...
- Category is 9
- Pattern contains Camo, Geometric
- Sale is Yes
-

**Apply Fees for** - here you can decide if you'd like to charge fee for the whole cart or per each product.

In case you want to apply fees per each product from a specific set, you can define the set subselection via conditions tree.

## Frontend examples

Show extra fee blocks on the shopping cart page. Use either a percent or a fixed price type for each extra fee block. Percent fees are calculated automatically.

### Shopping Cart
