For more details see how the Extra Fee extension works.

Guide for Extra Fee for Magento 2

Add extra fees to any additional services you need and display them on the checkout and shopping cart pages. With flexible conditions and advanced settings, you can display relevant fees to customers and encourage them to spend more.

- Generate an unlimited number of extra fees
- Display fees on cart and checkout pages
- Create extra fees based on payment and shipping methods
- Determine fees display with flexible conditions
- Use percent and fixed price fee types
- WCAG compliant (for Hyva Checkout, Hyva and Luma Themes)
- Complies with Hyvä Checkout Content Security Policy

The extension is read and write **GraphQL compatible**. Now you can expose and mutate the datasets in Extra Fee extension for Magento 2 via GraphQL queries.

Magento 2 Extra Fee extension is compatible with **GraphQL Application Server**. You can find the **amasty/module-graphql-application-server-compatibility** package for installing in composer suggest.

In **Extra Fee FAQ** you can find answers to the most popular questions about the extension functionality.

Magento 2 Extra Fee extension is compatible with Hyvä themes.You can find the 'amasty/moduleextrafee-hyva' package for installing in composer suggest (Note: the compatibility is available as a part of an active product subscription or support subscription).

The extension is compatible with **Hyvä Checkout**. Provided in one package with the Hyvä Theme, you can find the 'amasty/module-extrafee-hyva-checkout' package for installing in composer suggest (Note: the compatibility is available as a part of an active product subscription or support subscription).

General Extension Settings

To configure general extension settings please go to Stores \rightarrow Configuration \rightarrow Amasty Extensions \rightarrow Extra Fee

General

General

Show On Order Grid [store view]

Yes

Show On Order Grid - set to 'Yes' to allow fees display on the Order Grid.

Calculation

In this section, you can configure on scope level the way your fees will be calculated.

Calculation

Include Discounts in Calculations [store view]	No	•
	Select 'Yes' if you want to calculate the extra based on the prices with discount amounts for percent fee type)	fee (only
Apply Tax Class to Extra Fees [store view]	Yes	•
	Set whether Extra Fee calculations should in or exclude taxes. If 'Yes': • for the 'Fixed Fee' type the 'Fee Tax Class' of will always be applied; • for the 'Percent Fee' type, you should choo between 'Product Tax Class' or 'Fee Tax Class options.	clude ption se s'
Use Fee's Tax Class Instead of Product's Tax Class for Percent	No	•
Fees [store view]	Set 'Yes' if you want to override 'Product Tax configuration by specific 'Fee Tax Class' setti Fee calculation purposes.	Class' ng for
Use Product's Shipping Cost as Product Price Part for	No	•
Calculations [store view]	Select 'Yes' if you want to calculate the extra based on the prices with shipping costs (only percent fee type)	fee y for

Include Discounts in Calculations - select 'Yes' if you want to calculate the extra fee based on the prices with discount amounts (only for percent fee type).

Apply Tax Class to Extra Fees - select 'Yes' if you want to calculate the extra fee based on the prices with taxes. Please kindly note that, for the 'Fixed Fee' charges, the tax class option will always be applied. For 'Percent Fee' charges, please configure the setting below.

Use Fee's Tax Class Instead of Product's Tax Class for Percent Fees - enable this option to 'Yes' to set different tax class for percent fees.

Use Product's Shipping Cost as Product Price Part for Calculations - select 'Yes' if you want to calculate the extra fee based on the prices with shipping costs (only for percent fee type).

Also, you can tweak the calculation for each specific fee. To do that, please proceed with the Extra Fees Creation: Calculation part of the User Guide.

Тах

In this section, you can adjust the tax class for extra fees.

Тах

Tax Class [store view]	Taxable Goods 🔹

Display Prices at Orders, Invoices, Credit Memos	Including and Excluding Tax
[store view]	

This feature is highly important for EU tax laws compliance. Adjust this setting according to local tax laws. Learn more about EU Tax Guidelines on official Magento website.

Tax Class - specify the tax class for the extra fees. If you haven't had the special tax class for your extra fee - you can create it in *Stores* \rightarrow *Taxes* \rightarrow *Tax rules* \rightarrow *Add new tax rule*. If set to **None**, the tax won't be calculated.

Then, choose whether to include or to exclude the tax into fees calculation display for **Display Prices** at Shopping Cart and Display Prices at Orders, Invoices, Credit Memos options.

If the setting is set to **Include Tax**, then taxes will be included in the cost of the initial fee. For example, if the fee amount is \$10, Tax=10%, then the Fee Amount visible for the end-user will be 9.09 Fee + 0.91 Tax. In Order Total it will be shown as \$10.

If the setting is set to **Exclude Tax**, then taxes will be excluded from fee calculation. For example, the Fee Amount is \$10, Tax=10%. Then, an end-user will see Fee Amount of \$10 Fee + \$1 Tax. In Order

Total it will be shown as \$11.

Frontend

In this section, you can adjust the display of Fees on the Shopping Cart page.

Frontend

Show On Cart Page [store view]

Yes

Show On Cart Page - set to 'Yes' to display fees on Shopping Cart.

Extra Fees Creation

Specify store views and customer groups for which your extra fees will be available.

Conditions

2025/08/24 07:26	11/18	Guide for Extra Fee for Magento 2
FEE INFORMATION		Conditions (don't add conditions if need all products)
General		If ALL of these conditions are TRUE :
Ontinue		Please choose a condition to add.
Options		Please choose a condition to add.
Stores & Customer Groups		Products subselection Conditions combination Cart Attribute
Conditions		Subtotal Total Items Quantity
Calculation		Total Weight Payment Method Shipping Method Shipping Postcode Shipping Region
🕦 Copyright © 2018 Magento Commerce	e Inc. All rights reserved.	Shipping State/Province Shipping Country Advanced Conditions Weight Quantity In Stock Billing Address Country Payment Method Shipping Address Line

You can show fees based on products and cart attributes. In case a customer meets the conditions he/she will see the fees block on the cart and checkout page.

Create rules based on active shipping and payment methods. Once a customer chooses the specified shipping or payment method, the fees block with custom options is displayed.

Calculation

FEE INFORMATION	Percent Fee	Calculation
General 💉	Include discount in	Default
Options	SUDIOTAI	discount amounts (only for percent fee type)
Stores & Customer Groups	Include shipping in subtotal	Default No Yes
Conditions		Default
Calculation		Select 'Yes' if you want to calculate the extra fee based on the prices with shipping costs (only for percent fee type)

You can choose to include discount and shipping subtotals into the fee for each particular rule. If the options are set to 'Default', parameters for calculation will be taken from the General extension settings.

Fee Calculation Applicability

Apply Fees Each Product in the Cart

Only products with attributes selected below will be counted for this Fee calculation (leave blank for all Items)

Percent based Fees are being calculated using eligible products' Subtotal as a base. Fixed Fees use eligible products' quantity while 'Per Product' is enabled.

If ANY of these conditions are TRUE :

0

Apply Fees for - here you can decide if you'd like to charge fee for the whole cart or per each product.

In case you want to apply fees per each product from a specific set, you can define the set subselection via conditions tree.

Extra Fees and Multishipping Checkout

This compatibility ensuring validation of applied fees based on created shipments.

You can find the 'amasty/module-extrafee-multishipping' package for installing in composer suggest (Note: the feature is available as a part of an active product subscription or support subscription).

How to configure fees when multishipping is enabled

To ensure proper functionality with multicheckout, we recommend displaying the fees on the shopping cart page, as fees cannot yet be selected during the multicheckout steps. To display the fees on the cart page, enable the "Show On Cart Page" setting in the General settings.
