For more details see how the Grouped Options extension works.

Guide for Grouped Options for Magento 2

Combine several similar filter options in groups to make your store navigation more capacious and convenient with Magento 2 Grouped Options extension. This functionality is extremely useful for color mapping, but also may be applicable to other attributes with catalog input type 'Visual Swatch'. Grow your sales by displaying more related products in search results and reducing buyer's time on choosing product variants.

- Unite multiple attribute options into groups
- Specify position for added groups
- Manage all grouped options in a handy grid
- Customize URL alias for grouped options

Please view this short video to see the example on how to configure grouped options

Manage Grouped Options From The Grid

To create and edit grouped attribute values go to **Stores** \rightarrow **Attributes** \rightarrow **Manage Grouped Options**.

🚣 demouser 🗸

🏠 Columns 🤹

of 1

Action

Add New Group

_	Manage Grouped Options								
							T Filters	ø	Default View
Actions • 4 records				4 records fou	ind (1 selected)		20 👻	per page	<
	•	ID	4 Po	osition	Title	Status	Attribute	Options	
								Orange Red	
	✓	1	1		Red	ACTIVE	Color	Pink Light Pink Indian Red	

7	1	1	Red	ACTIVE	Color	Pink Light Pink Indian Red	Select 💌
	2	2	Blue	ACTIVE	Color	Blue Light Blue Sky Blue Navy Dark Blue	Select 💌
	3	3	Green	ACTIVE	Color	Green	Select 💌
	4	3	Winter Activities	ACTIVE	Activity	Sledging Skating Skiing	Select 💌

You can manage all created groups of options from one grid without opening them in a new window. Right from the grid, you can easily adjust the title of any group, its position, status, and remove or add particular options to the group.

	ID ↓	Position	Title	Status	Attribute	Options	Action
~	1	1	Red	Active 💌	Color	Select 💌	/
	2	2	Blue	ACTIVE	Color	Blue Light Blue Sky Blue Navy Dark Blue	Select 💌

Add & Edit Grouped Options

Please note, that the Grouped Options functionality **is only applicable** to the attributes with **Catalog Input Type = Visual Swatch**. Before creating a group of options, you may go to the needed attribute settings page **Stores** \rightarrow **Attributes** \rightarrow **Product** \rightarrow **Manage Swatch** and check if all required values for this attribute are added. Add new ones if needed.

General 🖌	
Status	C Active
Group Title *	Admin Default Store View Red Red
Group Code *	red
Swatch	
Position *	1
Attribute	Color
Attribute Options	Select options for this attribute group
	Dark Blue
	✓ Tomato
	✓ Pink
	✓ Light Pink
	✓ Indian Red

Status - Set to 'Active' to enable filter group on the frontend.

Group Title - Specify different titles for attributes' group for each view store individually.

Group Code - Specify a group code that will be used in the URL of the filter results page by default

Swatch - Select the main thumbnail swatch for the whole group.

Position - Set the display position for your frontend filters block. This setting defines the position only among the Group Attribute Options (created within the same attribute). It doesn't affect the positioning of common attribute options in the filter.

Attribute - Select an attribute type for which you want to create a group.

Attribute Options - Once the attribute is selected you'll see corresponding attribute options. Select the ones that you want to gather in a group.

Frontend Example

See the extension in action. When a customer selects the icon of an attribute group ('Blue' for example), the module will display all products with the attributes from the 'Blue' group.
