Guide for HTML Sitemap for Magento 2

Create a handy HTML sitemap just in a couple of clicks. Add multiple links like products, categories, CMS-pages as well as any additional links to make the sitemap as detailed as it can be. Include and exclude particular pages from the sitemap and easily customize the layout of each sitemap block. Normally, HTML Sitemap accessible at **example.com/sitemap.html**

- Include categories, products and CMS-pages in a sitemap
- Add any additional links to a sitemap
- Configure a sitemap layout
- Specify meta tags for a sitemap page

The extension is compatible with **Hyvä Theme**. You can find the 'amasty/module-seo-html-sitemap-hyva' package for installing in composer suggest. The compatibility is available as a part of an active product subscription or support subscription.
