Guide for Layered Navigation for Magento 2

Improve your store performance with the most essential navigation features gathered in Magento 2 Lite Layered Navigation extension. Reduce abandonment rate and increase conversion rate with a better filtering experience.

- Accelerate filtering process with AJAX functionality
- Activate multi-select option to make navigation convenient
- Use the price slider to display only relevant items
- Adjust mobile filtering with responsive navigation
- Hyva-ready storefront

The extension is compatible with **Hyvä Theme**. You can find the 'amasty/module-iln-lite-hyva' package for installing in composer suggest. The compatibility is available as a part of an active product subscription or support subscription.

General Settings

To configure the extension, please go to **Stores → Configuration → Amasty Extensions → Lite Layered Navigation**.

General

Enable Ajax [store view]	<input type="text" value="Yes"/>	<input type="button" value="v"/>
Enable this option to let customers apply filters without page reloads.		
Scroll to top after AJAX load [store view]	<input type="text" value="Yes"/>	<input type="button" value="v"/>
Enable Multiselect for Filters [store view]	<div><div>Activity</div><div>Category Gear</div><div>Climate</div><div>Collar</div><div>Color</div><div>Features</div><div>Format</div><div>Gender</div><div>Manufacturer</div><div>Material</div></div>	
Enable Price Slider [store view]	<input type="text" value="Yes"/>	<input type="button" value="v"/>
Price Slider Step [store view]	<input type="text" value="1"/>	
Add Vertical Scrolling to Filter Block After [store view]	<input type="text" value="170"/>	
Set maximum box height in px, to disable enter 0.		

Enable AJAX - enable this option to let customers apply multiple filters without page reloads.

Scroll to top after AJAX load - set to Yes to automatically navigate customers to the top of the page after filtering.

Enable Multiselect for Filters - specify the filters for which a multi-select option will be allowed.

Enable Price Slider - select Yes to display a handy price slider on the frontend.

Price Slider Step - specify the interval that will be shown when a customer moves the slider, e.g. if this option is set to 10 and the starting value is 40, a user will be able to choose 40, 50, 60, etc. value as the initial or final price. If 1 is set, a customer will be able to choose the price of 41, 42, 43, and so on.

Add Vertical Scrolling to Filter Block After - specify maximal filter size (in pixels) that will be displayed without vertical scrolling. In case a filter is higher than the indicated size, the scrolling will appear. To disable scrolling, enter 0.

Advanced Options

Lite Layered Navigation is the lite version of [Magento 2 Improved Layered Navigation](#). Check it out to add more options to your navigation system.

Frontend Examples

Grow the number of purchases by letting customers apply several filters values at once.
