See the way the Lite Layered Navigation for Magento 2 extension works.

# **Guide for Layered Navigation for Magento 2**

Improve your store performance with the most essential navigation features gathered in Magento 2 Lite Layered Navigation extension. Reduce abandonment rate and increase conversion rate with a better filtering experience.

- Accelerate filtering process with AJAX functionality
- Activate multi-select option to make navigation convenient
- Use the price slider to display only relevant items
- Adjust mobile filtering with responsive navigation
- Hyva-ready storefront

The extension is compatible with **Hyvä Theme**. You can find the 'amasty/module-iln-lite-hyva' package for installing in composer suggest. The compatibility is available as a part of an active product subscription or support subscription.

#### **General Settings**

To configure the extension, please go to Stores  $\rightarrow$  Configuration  $\rightarrow$  Amasty Extensions  $\rightarrow$  Lite Layered Navigation.

#### General

Enable Ajax [store view]	Yes	•
	Enable this option to let customers apply filters without page reloads.	
Scroll to top after AJAX load [store view]	Yes	•
Enable Multiselect for Filters [store view]	Activity	
	Category Gear	
	Climate	
	Collar	
	Color	
	Features	
	Format	
	Gender	
	Manufacturer	
	Material	<ul> <li>▼</li> <li>//</li> </ul>
Enable Price Slider [store view]	Yes	•
Price Slider Step [store view]	1	
Add Vertical Scrolling to Filter Block After [store view]	170	
	Set maximum box height in px, to disable enter 0.	

Enable AJAX - enable this option to let customers apply multiple filters without page reloads.

**Scroll to top after AJAX load** - set to *Yes* to automatically navigate customers to the top of the page after filtering.

Enable Multiselect for Filters - specify the filters for which a multi-select option will be allowed.

Enable Price Slider - select Yes to display a handy price slider on the frontend.

**Price Slider Step** - specify the interval that will be shown when a customer moves the slider, e.g. if this option is set to 10 and the starting value is 40, a user will be able to choose 40, 50, 60, etc. value as the initial or final price. If 1 is set, a customer will be able to choose the price of 41, 42, 43, and so on.

Some nuances of interacting with the price slider on the storefront:

- Products outside the selected price range in the slider will be hidden.
- If all products on the page are outside the lower or upper limits, the price filter will not be displayed.

**Add Vertical Scrolling to Filter Block After** - specify maximal filter size (in pixels) that will be displayed without vertical scrolling. In case a filter is higher than the indicated size, the scrolling will appear. To disable scrolling, enter 0.

#### **Advanced Options**

**Lite Layered Navigation** is the lite version of Magento 2 Improved Layered Navigation. Check it out to add more options to your navigation system.

### **Frontend Examples**

Grow the number of purchases by letting customers apply several filters values at once.

Add a handy vertical scrolling for filters with multiple values.
