

amasty

For more details see how the [Product Tabs for Magento 2](#) extension works.

Guide for Product Tabs for Magento 2

Provide customers with detailed product information via Product Tabs for Magento 2. Let them get all the info they need and, thus, reduce the decision-making time.

- Customize default product tabs according to your needs
- Add new tabs to Magento 2 product pages
- Set flexible rules for custom tabs
- Modify tabs content in a few clicks
- Apply any type of visual content to your tabs
- Display a related products tab
- Hyvä-ready storefront
- WCAG compliant (for Hyvä Theme)

This extension is compatible with Hyvä Theme for Product Tabs. You can find the '**amasty/module-custom-tabs-hyva**' package for installing in composer suggest. The compatibility is available as a part of an active product subscription or support subscription.

General Settings

To configure the extension, go to **Stores → Configuration → Amasty Extensions → Product Tabs**.

Expand the **General** tab.

General ⌵

Extension Enabled
[store view]

Yes

Allow Editing Default Magento
Tabs
[store view]

Yes

Accordion View
[store view]

No

Extension Enabled - set to *Yes* to activate the module and add new tabs to Magento 2 product pages.

Allow Editing Default Magento Tabs - select *Yes* if you want to be able to customize the default tabs. If *No*, only custom tabs will be allowed for editing.

Accordion View - set to *Yes* to change the way tabs will be displayed to an accordion view: all tabs will be shown as a dropdown list. This feature can be very handy if you have lots of tabs and/or long tab names that don't fit the standard tab view. See the [front-end example of the accordion view](#).

Tab Management

To add new tabs to Magento 2 product pages as an admin, navigate to **Catalog** → **Product Tabs** → **Tab Management**.

<input type="checkbox"/>	4	Related Products	Related Products	ACTIVE	Custom	All Store Views	All	Edit
<input type="checkbox"/>	2	Images	Image Gallery	ACTIVE	Custom	All Store Views	All	Edit

All the information about the tabs is displayed on a handy grid. You can easily check and edit **Tab Order**, its **ID**, **Tab Name** and **Title**, **Status**, **Type** (Custom, Default or 3rd party), **Module Name**, **Store View** and **Customers Groups** to which the particular tab is visible. You can also add a new product page tab from Magento 2 admin panel.

Tab Title can be dynamic. It is indicated in braces:

{{default_tab_title}}

If a 3rd-party tab is disabled in the native extension, you can't enable it via Amasty Product Tabs. But if it is enabled, you may disable it or limit tab's display using flexible conditions. In this case, the extension works as a filter.

To perform mass actions, tick the tabs and choose the necessary action from the **Actions** dropdown. It is possible to *Delete*, *Enable*, *Disable* or *Duplicate* tabs in bulk.

Adding a New Tab

To add a new tab to a Magento 2 product page, admin can click **Add New Tab** button above the grid.

Tab Details

Tabs Details

Type Custom 

Status Enabled

Tab Name *

Set tab name describing its content/conditions to display

Tab Title *

Tab name to be displayed on product pages

Tab Order

Tab Anchor

Adjust the anchor to set up custom url for the tab. Leave blank to use the value from the configuration.

Store View * 

Main Website
Main Website Store
Default Store View

Customer Groups
General
Wholesale
Retailer

Type - the type of the tab is detected automatically.

3 types are possible:

- *Default* - default Magento tabs;
- *Custom* - the tabs created via the extension;
- *3rd-party* - the tabs generated by any other third-party extensions.

Status - switch to *Yes* to enable the tab on the frontend.

Tab Name - set tab name for internal use describing its content/conditions to display.

Tab Title - specify tab name to be displayed on product pages.

Tab Order - set tab's position among the other tabs.

Tab Anchor - Adjust the anchor to set up a custom URL for the tab. Leave blank to use the value from the configuration.

Store - choose the store(s) to which this tab will be applied.

Customer Groups - select the groups to which the particular tab will be displayed.

Tab Content

Using Magento 2 Product Tabs, you can specify any type of content that will be displayed in the tab due to the WYSIWYG editor. The extension uses the editor installed in the user's Magento instance. So its functionality depends on global WYSIWYG preferences.

You can adjust editor's configuration if needed. In this case go to **Stores → Configuration → General → Content Management → WYSIWYG Options**.

For more information, see this [WYSIWYG User Guide](#).

Show / Hide Editor

Path: p » img

Except for the editor's options, it is possible to insert various widgets, variables and attributes right from the *Edit Tab Content* field.

Tab Content

 Edit Tab Content 

Content

Show / Hide Editor

Insert Widget...

Insert Variable...

Insert Attribute...

```
<table border="0">
<tbody>
<tr>
<td rowspan="2"><strong>SIZE</strong></td>
<td style="text-align: center;" colspan="2"><strong>X-SMALL</strong><strong>
</strong></td>
<td style="text-align: center;" colspan="2"><strong>SMALL</strong><strong></strong>
</td>
<td style="text-align: center;" colspan="2"><strong>MEDUIM</strong><strong>
</strong></td>
<td style="text-align: center;" colspan="2"><strong>LARGE</strong><strong></strong>
</td>
</tr>
<tr>
<td style="text-align: center;">0</td>
<td style="text-align: center;">2</td>
<td style="text-align: center;">4</td>
<td style="text-align: center;">6</td>
<td style="text-align: center;">8</td>
<td style="text-align: center;">10</td>
```

If you want to reset the content of the tabs with type 'Default' of '3rd-party' to its default values copy the variable `{{default_tab_content}}` and paste it in the WYSIWYG editor

Thus, you can display valuable information about the product. For example, just hit the **Insert Attribute** button and choose the attribute(s) that will be shown in a tab.

Insert Attribute ✕

[Cancel](#) [Insert Attribute](#)

Search by keyword

Select	Attribute Name	Attribute Code
<input checked="" type="checkbox"/>	Activity	activity
<input checked="" type="checkbox"/>	Allow Gift Wrapping	gift_wrapping_available
<input checked="" type="checkbox"/>	Base	image
<input type="checkbox"/>	Card Type	giftcard_type

<input type="checkbox"/>	Country of Manufacture	country_of_manufacture
<input type="checkbox"/>	Custom Block	custom_block

Be aware that some of the default Magento service attributes are hidden since it can't be displayed on the frontend correctly. Here is the list:

```
custom_design
custom_design_from
custom_design_to
custom_layout
custom_layout_update
msrp_display_actual_price_type
options_container
price
price_type
price_view
visibility
```

You may also show Related, Up-Sell and Cross-Sell products to increase the average check.

⏪ Related, Up-Sell, Cross-Sell Products ✎

Show Related Products Yes

Show Up-Sell Products Yes

Show Cross-Sell Products Yes

Switch to Yes to enable a particular group of products on product pages.

Assign to Products

With the extension, you can set flexible conditions to adjust the tabs display.

Assign to Products

Apply the rule only if the following conditions are met (leave blank for all products).

If ALL of these conditions are TRUE :

Category is 20, 11, 12 ✖

Attribute Set is Bottom ✖

When the configuration is over, click **Save Tab**.

Default Tab Customization

Apart from adding tabs to Magento 2 product pages, the module allows editing default tabs.

The default tab content is represented as a placeholder, so it's impossible to edit any details inside it. But you can add the information before or after the default content or remove it at all and replace it with your custom data.

Tab Content

Edit Tab Content

Content

Show / Hide Editor

{{default_tab_content}}

SIZE	X-SMALL	SMALL	MEDUIM	LARGE				
	0	2	4	6	8	10	12	14
BUST	32	33	34	35	36	37	38 1/2	40

HIPS	34	35	36	37	38	39	40 1/2	42

Path: p

If you want to reset the content of the tabs with type 'Default' of '3rd-party' to its default values copy the variable {{default_tab_content}} and paste it in the WYSIWYG editor

If you want to reset the content of the tabs with type 'Default' of '3rd-party' to its default values, paste this variable in the WYSIWYG editor:

```
{{default_tab_content}}
```

Tabs Templates

After the module installation, the set of predefined tab templates gets generated automatically in the **Tab Management** grid. To access it, please navigate to **Catalog → Product Tabs → Tab Management**. The set includes the following templates: FAQ, Footwear, Men Bottoms, Men Tops, Women Bottoms, Women Tops.

100	20	FAQ	FAQ	INACTIVE	Custom	Amasty_ProductTabs	All Store Views	All	Edit

By default, all of the pre-made tab templates are disabled. To activate a size chart or FAQ on a product page, set the **Status** switcher to the **Enabled** state in the tab settings.

Content in the templates most likely needs to be adjusted with your needs or product/brand specifics. Check the size grid, measurement units, and text in the tab before publishing.

To make corrections in the tab content just use the WYSIWYG editor in the **Tab Content** section.

Tab Content

Edit Tab Content

Content

Show / Hide Editor

Insert Attribute...

The screenshot shows a WYSIWYG editor interface. At the top, there are buttons for 'Show / Hide Editor' and 'Insert Attribute...'. Below these is a rich text editor toolbar with various icons for text formatting (bold, italic, underline, link, unlink, list, indent, outdent, text color, background color), alignment, and other functions. The main content area displays a size chart with the following text:

Find your size

Product
Size Bust(in) Waist(in) Hip(in)

XS 30.5" - 32.5" 21.5" - 23.5" 32.5" - 34.5" 0 - 2

S 33" - 35" 24" - 26" 35" - 37" 4 - 6

M 35.5" - 37.5" 26.5" - 28.5" 37.5" - 39.5" 8 - 10

L 38" - 40" 29" - 31" 40" - 42" 12 - 14

XL 40.5" 31.5" 42.5" 16 - 18

Measure your feet

Women Top

- Bust
Measure around the fullest part of the bust, keeping the tape horizontal.
- Waist
Measure around the narrowest part (typically the small of your back and where your body bends side to side), keeping the tape horizontal.

Path: section.amtab-grid-wrapper-small-women-tops » figure » h4.amtab-title

If you want to reset the content of the tabs with type 'Default' of '3rd-party' to its default values copy the variable `{{default_tab_content}}` and paste it in the WYSIWYG editor

In order to create several templates with similar content (like a few Footwear tabs for different shoe brands), you can use the **Duplicate** button on the button bar in the tab settings.

Use the **Assign to products** condition tree to specify the right products where a certain tab should be displayed.

Edit Tab "Women Tops"

Tabs Details 

Tab Content  

Assign to Products 

Apply the rule only if the following conditions are met (leave blank for all products).

If ALL of these conditions are TRUE :

Category is ... 

SKU is ... 

Please choose a condition to add. 

Take into account, that by default each tab is assigned to all store views and all the customer groups available within your instance. Adjust the display options with the appropriate controls.

Frontend Examples

Create and add as many Magento 2 tabs to product pages as you need. Highlight useful materials, e.g.: Tax details, Image gallery, Shipping rules, Q&A, Contact us, etc. and adjust tabs sort order.

The extension doesn't modify the style of tabs on the frontend. The tabs' CSS should be provided by your frontend theme. Product Tabs extension allows editing the title, content, and visibility of tabs only.

Related Products Block

Boost the number of purchases with the **Automated Related Products** extension.

You can add the block with cross-sells to product tabs in a few simple steps:

1. Go to **Catalog** → **Amasty Related Products** → **Related Product Rules** to generate a rule. Set the **Custom** rule type and **Custom position** for the rule. Copy rule's ID.

2. Create a new product tab. In the **Tab Content** area click **Insert Widget** and select *Amasty Related Products Block*. Specify the rule's ID.

3. Save the tab.

- Video Demo
- Related Products

Related Products

The image shows three product cards in a row. The first card on the left features a woman in a teal long-sleeved pullover and shorts, labeled 'Hera Pullover Hoodie' with a price of 'As low as \$48.00'. The middle card features a woman in a white zip-up hoodie and grey pants, labeled 'Selene Yoga Hoodie' with a price of 'As low as \$42.00'. The third card on the right features a woman in a yellow tank top and black shorts, labeled 'Zoe Tank' with a price of 'As low as \$29.00'. Each card includes a small bar chart icon at the bottom.

If needed, disable widget display in the footer. Thus, you will show related products right in the tabs instead of page footer and have additional free space.
