# Admin Actions Log for Magento 2

Enable the detailed tracking of all backend actions performed by store administrators. Check log history and login attempts on the special grid and improve your backend users performance with the help of the real-time tracking mode.

- Log actions of all admin users
- Save log details for a predefined period of time
- Record the backend login attempts
- Check admin actions in real-time
- Get the detailed page view history

## General Settings

To configure general extension settings please go to **Stores → Configuration → Amasty Extensions → Admin Actions Log**. Then, expand the **Log Settings** section.

The screenshot shows the Magento 2 Configuration page for the Admin Actions Log extension. The left sidebar contains navigation icons for SALES, PRODUCTS, CUSTOMERS, MARKETING, STORES, and SYSTEM. The main content area is titled 'Configuration' and includes a 'Save Config' button. The 'AMASTY EXTENSIONS' section is expanded to show 'Admin Actions Log'. The 'Log Settings' section contains the following configuration options:

Setting	Value	Scope
Enable Page Visit History	Yes	[STORE VIEW]
Log Actions For All Admin Users	No	[STORE VIEW]
Admin Users To Log Actions For	admin admin (admin) demouser demouser (demouser)	[STORE VIEW]
Automatically Clear Action Logs After, Days	90	[STORE VIEW]
Automatically Clear Login Attempts After, Days	90 Set 0 for unlimited	[STORE VIEW]
Automatically Clear Page History Log, Days	90 Set 0 for unlimited	[STORE VIEW]

**Enable Page Visit History** — set this option to **Yes** if you want to collect history of all pages, visited by the administrators;

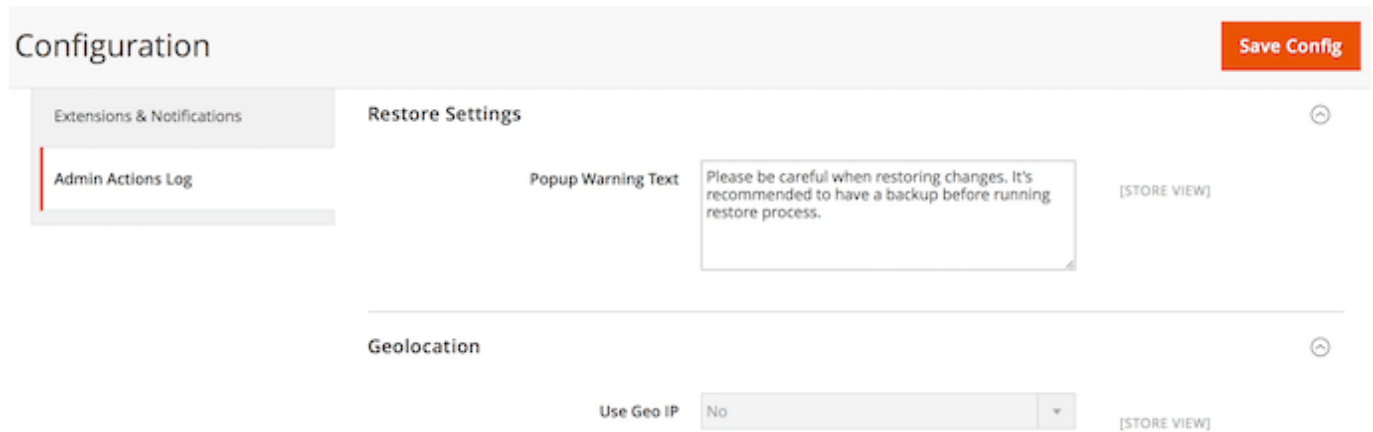

**Log Actions For All Admin Users** — set this option to **Yes** to keep track of all admin actions. If you are only interested in actions of certain administrators, choose **No**;

**Admin Users To Log Actions For** — specify the admin user names to log actions for;

**Automatically Clear Action Logs After, Days** — specify the number of days after which all action logs would be automatically deleted;

**Automatically Clear Login Attempts After, Days** — specify the number of days after which all login attempts would be automatically deleted;

**Automatically Clear Page History Log, Days** — specify the number of days after which all page history would be automatically deleted.

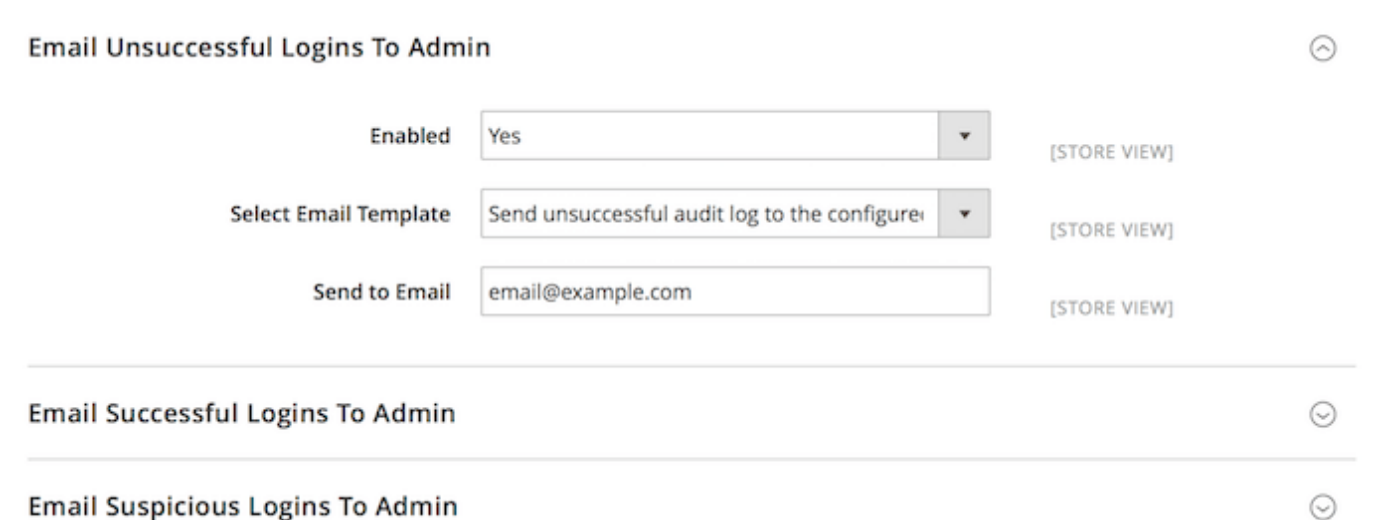

Next, please expand the **Restore Settings** section.

**Popup Warning Text** — fill in the warning message for the **Restore** feature.

When done, expand the **Geolocation** section.

**Use GeoIP** — enable or disable GeoIP support to determine the country and city from which admin users get logged in.

## Email Notifications

With the extension, you can get notifications about **Successful**, **Unsuccessful**, and **Suspicious** admin panel login attempts. To enable any type of notifications, please expand the corresponding section and configure the following options:

**Enable** — enable or disable a certain notification type;

**Select Email Template** — choose the email template to use for notifications;

**Send to Email** — specify the email address to send notifications to.

## Login Attempts Log

To access the Login Attempts grid please go to **System** → **Admin Actions Log** → **Login Attempts**.

The screenshot shows the 'Login Attempts' grid in the Magento 2 admin panel. At the top right, there is a user profile icon for 'demouser'. Below it is a 'Clear Log' button. The grid has search and filter controls, including a 'Search' button, a 'Reset Filter' button, and a '6 records found' indicator. There are also pagination controls showing '20 per page' and '1 of 1' records. The grid itself has the following columns: Date, Username, Full Name, IP Address, Location, User Agent, and Status. The data rows show login attempts for 'demouser' and 'admin' with various dates and times, IP addresses, and user agents. The status column contains 'SUCCESS' or 'LOGOUT' labels.

Date	Username	Full Name	IP Address	Location	User Agent	Status
From						
To						
Nov 21, 2017, 12:09:00 PM	demouser	demouser demouser	213.184.226.82		Safari 11.0.1	SUCCESS
Jun 24, 2016, 11:41:23 AM	admin	admin admin	213.184.226.82		Firefox 47.0	SUCCESS
Jun 24, 2016, 11:15:03 AM	admin	admin admin	213.184.226.82		Firefox 47.0	LOGOUT
Jun 24, 2016, 11:13:19 AM	admin	admin admin	213.184.226.82		Firefox 47.0	SUCCESS
Jun 24, 2016, 11:13:00 AM	admin	admin admin	213.184.226.82		Firefox 47.0	LOGOUT
Jun 24, 2016, 11:11:04 AM	admin	admin admin	213.184.226.82		Firefox 47.0	SUCCESS

On the grid you can find the following details:

- Date;
- Username;
- Full Name;
- IP Address;
- Location (see the [General Settings](#) section to enable this column);
- User Agent;
- Status.

Generally, each store administrator can have one of three available statuses:

**Success** — this status appears when a user is successfully logged in to the admin panel;

**Logout** — this status appears when a user is successfully logged out from the admin panel;

**Failed** — this status is shown when the person tries to log in with a wrong username or password.

You can filter the information on the Login Attempts grid by all available columns.

## Page Visit History

To see the history of pages visited by all administrators please go to **System → Admin Actions Log → Page Visit History**.
