Magento Extension User Guide

Official extension page: [Admin Actions Log](#)

User Guide: [Admin Actions Log](#)

Support: <http://amasty.com/contacts/>

Table of contents:

1. Extension settings	3
2. Login attempts page	6
3. Page Visit History	8
4. Active Sessions	10
5. Action Log	11
6. Action preview on 'Action Log' grid	12
7. Detailed view of changes made by the admin	13
8. How to restore changes	16
9. History of changes on other pages	17

To configure the module work please go System -> Configuration -> Admin Actions Log

Admin Actions Log

If you set this option to 'Yes', users will not be able to login after unsuccessful attempts.

Save Config

Login Lockout Settings

Enable Automatic Login Lockout 
▲ User will not be able to login after unsuccessful login attempts

Number Of Failed Login Attempts
▲ Maximum allowed number of tries

Lockout Time (in seconds)
▲ Blocking will be removed after this amount of time. If set to 0, users will be locked permanently, until lock is removed manually

Remove All Lockouts
▲ Clicking this button will unblock all currently blocked users

[STORE VIEW]

Specify the number of available login attempts before a user is blocked.

Specify the time in seconds after which blocking will be removed. During lockout time all login attempts (even with the right password) will be considered as unsuccessful.

IMPORTANT. When you specify '0' (zero) for this option, user will be blocked until you click 'Remove' button for 'remove all lockouts' setting.

By clicking this button you unblock all the users who had been blocked.

Email Successful Logins To Admin	
Geolocation	

Set the option to "Yes" if you want to terminate suspicious sessions with the same admin username.

Set this option to 'Yes' if you want to collect history of all pages, visited by the administrators

Set this option to 'Yes' to keep track of all admin actions. If you are only interested in actions of certain administrators, choose 'No' and select their names from the list below

Automatically Clear Action Logs After, Days: 90

Automatically Clear Login Attempts After, Days: 90

Automatically Clear Page History Log, Days: 90

Specify the number of days after which all action logs, login attempts and page history would be automatically deleted (If input is "0" – the logs won't be cleared)

Email successful logins to admin

Enabled

Select Email Template

Send to Email

Geolocation

Use Geo IP

Import

▲ Required files: GeoLiteCity-Blocks.csv, GeoLiteCity-Location.csv
GeoIP data was not imported yet.

Email unsuccessful logins to admin

Enabled

Select Email Template

Send to Email

Email suspicious logins to admin

Enabled

Select Email Template

Send to Email

Enable this option to receive emails about users who logged in the admin panel.

Use GeoIP support to determine country and city from where admin has logged in. To enable this option you need to download [the file](#).

Enable this option to get notifications of multiple login faults made during a short time.

Enable this option to get email notification if a user tried to log in from another country.

It is possible to set as many emails as you need.

2. Login attempts page

To see all login attempts please go to System
-> Admin Actions Log -> Login attempts.

Export login attempts data
in CSV and XML format.

Here you can see the
user geolocation.

Feb 26, 2015 7:20:17 PM	admin	admin admin	213.184.226.82		SUCCESS

'Locked out' status is displayed
when the person is already banned.
Until the lockout time is finished all
the login attempts will be
unsuccessful (even if the password
is right). This feature protects your
store admin panel from robots.
