Add new images:
 Drag image files from your
 file browser here to upload

Select multiple files to upload:

Once the images get uploaded, you can choose which of them should be used for thumbnail, small image and base image. You can also add labels for images, enable/disable images and delete them.

IMPORTANT. Please be aware, that for the edits to get saved you need to click 'Save' or 'Save and Continue Edit' button.

If for some reason you don't want to or can't use drag-and-drop functionality to upload images - click 'Browse' button, then choose the images (either one or multiple in one go) and press 'Open' button to upload the images.

User Interface

To change image position drag it by

Whole item block [STORE VIEW]
Item header
Whole item block
Item image

You can choose the surface by which images should be dragged when their sort order is changed. It can be the whole image block, only the images surface itself or just the header of the image block.

Admin panel -> System -> Configuration -> Image Upload.

Quick Overview

Juicy and tasty oranges. A lot of vitamin C, very good for your health and just delicious.

Double click on above image to view full picture

MORE VIEWS

Here's a front end example of a product with images uploaded using 'Express Image Upload'. Upload of images took less than half a minute.

Thank you!
