Ajax Shopping Cart

- Enable flying image effect: Yes
- Dialog Box Align: Center
- Display Product Image in Dialog: Yes
- Image to Show for Configurable Products: Child Simple Product Image
- Display Total Count of Products in Cart: Yes
- Display Total Amount in Cart: Yes
- Display 'Go to Checkout' Button: Yes

Callout 1: With this setting you can activate and deactivate nice looking visual effect.

Callout 2: You can choose where to display the cart dialog box (e.g. in the center of screen, in the top right corner, etc).

Callout 3: In a pop-up window customers will see the particular product configuration, which they've just added to cart (see the example).

Callout 4: It is possible to select what product information you would like to display in the cart dialog window. You can show the number of products in cart, current cart subtotal and the name of the product which is being added to cart.

3. Enable display of related products

The screenshot shows the Magento Admin interface. On the left is a dark sidebar with icons and labels for PRODUCTS, CUSTOMERS, MARKETING, and CONTENT. The main content area has a left-hand menu with expandable sections: GENERAL, CATALOG, CUSTOMERS, SALES, and SERVICES. The 'GENERAL' section is expanded, showing the following settings:

- General**
- Display Settings**
- Selling Options**

Under 'Selling Options', the setting 'Display Related Products in Confirmation Dialog' is shown with a dropdown menu currently set to 'Yes'.

To display related products in the cart dialog, please, set this option to 'Yes'.

4. Visual Settings

5. Frontend examples

This is how AJAX shopping cart window looks in custom colors. See page 13 for details.

Information

You have added [Montana Wind Jacket](#) to cart.

There is [1 item](#) in your cart.

Cart Subtotal: \$49.00

[GO TO CHECKOUT](#)

[VIEW CART](#) [CONTINUE\(7\)](#)

When adding products to cart, customers will see the item they are adding to cart and also brief cart overview – the number of items in the cart and current subtotal

5. Frontend examples

Customers can select configurable products and custom options right on the category page, without going to the product details page.

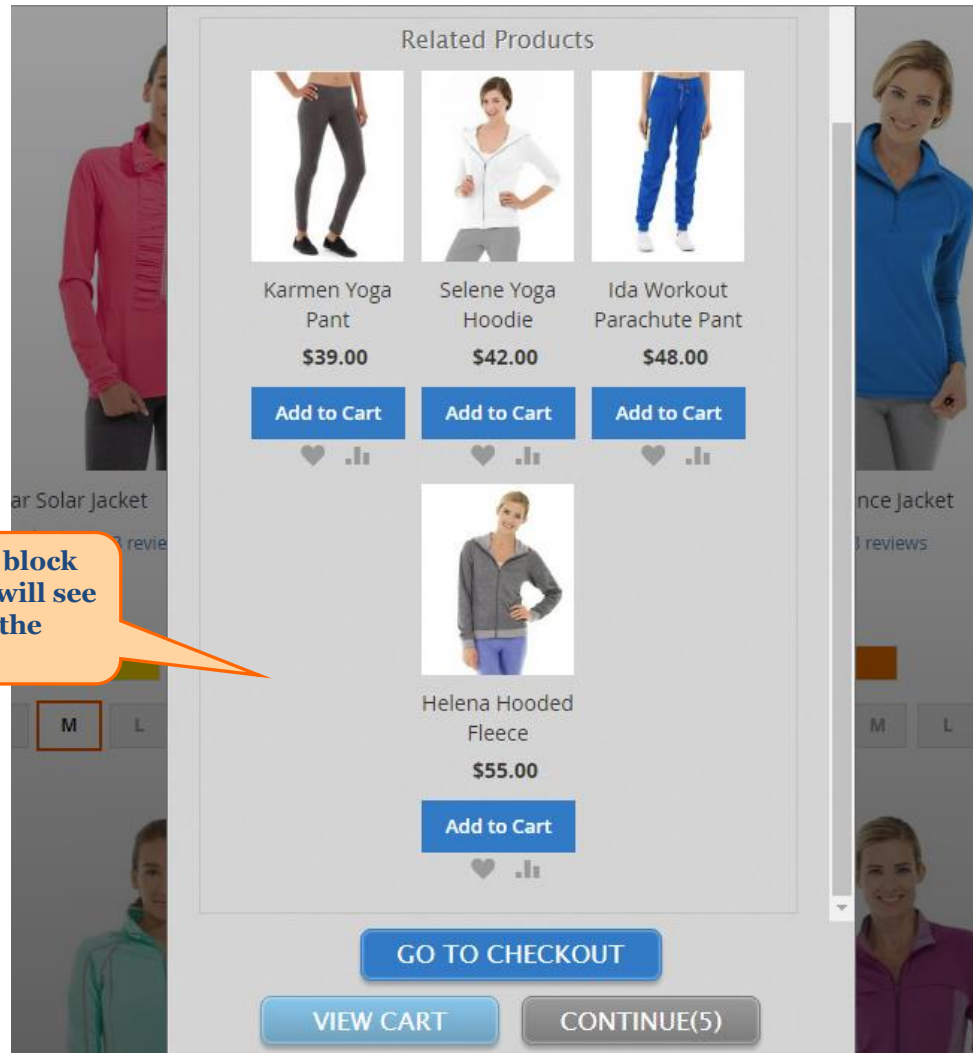

The screenshot shows a 'Set options' dialog box with the following elements:

- Color:** Labeled 'Color Green', with three color swatches: black, grey, and green. The green swatch is highlighted with a red border.
- Size:** Labeled 'Size M', with five size buttons: XS, S, M, L, and XL. The 'M' button is highlighted with a red border.
- Qty:** Labeled 'Qty', with a text input field containing the number '1'.
- Buttons:** A blue 'ADD TO CART' button and a grey 'CANCEL' button at the bottom.

Customers can specify the product quantity directly in confirmation dialog.

5. Frontend examples

You can add related products block in the cart dialog. Customers will see it when they add a product to the cart.

5. Frontend examples

The screenshot displays a shopping cart overlay on a product page. The overlay is titled "Information" and contains the following elements:

- A confirmation message: "You have added Juno Jacket to cart."
- An image of the "Juno Jacket" being added.
- A message: "There are 5 items in your cart."
- A "Cart Subtotal: \$385.00".
- A "Related Products" section with three items: "Aeon Capri", "Autumn Pullie", and "Carina Basic Capri", each with an "Add to Cart" button and a "GO TO CHECKOUT" button.
- Buttons for "VIEW CART" and "CONTINUE(2)".

An orange callout box points to the "Add to Cart" button for the "Juno Jacket" with the text: "Customers will see the same product configuration, which they've just added to cart".

The background shows the product page for the "Juno Jacket", including a search bar, navigation tabs (Men, Gear, Training), breadcrumb navigation (Jackets > Juno Jacket), a large product image, and a "GO TO CHECKOUT" button.
