Attribute Properties

Default label *

Catalog Input Type for Store Owner

Values Required

Manage Options (values of your attribute)

Is Default	Default Store View	Admin	
<input checked="" type="radio"/>	<input type="text" value="first_rule"/>	<input type="text" value="first_rule"/>	<input type="button" value="Delete"/>
<input type="radio"/>	<input type="text" value="second_rules"/>	<input type="text" value="second_rules"/>	<input type="button" value="Delete"/>

Please go to Catalog -> Attributes -> Manage Attributes and open attribute called "Custom Stock Status Qty Rule".

At the 'Properties' tab please create one rule for each product group, for which you will use different levels of stock. E.g. 'first_rule' for shirts and 'second_rule' for phones.

You need just to specify rule name at this page. Once you have created the rules here, please go to 'Quantity Range Statuses' and specify ranges for each rule.

3. Rules for quantity ranges

custom_stock_status

admin

← Back

If you would like the statuses to change automatically based on how many items of a product are left in the inventory, please create quantity ranges and assign the necessary statuses to the ranges. If you choose to use range based stock statuses when editing a product, the stock status will change automatically once the product quantity changes.

✓ You saved the product attribute

You can also see Stock Status Rule column. With its help you can specify different quantity levels for the same statuses for different groups of products. E.g. you can show the same status 'Running out' for Product A, when it has quantity from 1 to 5 and for Product B, when it has quantity from 1 to 100.

Use Quantity Ranges Based Stock Status

Custom Stock Status

Custom Stock Status Qty Rule

Go to edit the product (s), for which you need to use the custom stock status and choose the appropriate status at the General tab.

Use "Custom Stock Status Qty Rule" setting to choose which quantity rule should apply to this product.

5. Custom Stock Status settings

The screenshot shows the Amasty Custom Stock Status configuration page. The left sidebar contains navigation links: DASHBOARD, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is divided into sections: GENERAL, CUSTOMERS, AMASTY EXTENSIONS, and ADVANCED. The AMASTY EXTENSIONS section is expanded to show the Custom Stock Status settings. The settings are as follows:

Setting	Value	Description
Display Custom Stock Status for 'Out of Stock' Items Only	No	If set to 'No', custom stock status will be visible both for 'in stock' and 'out of stock' items.
Hide Default Stock Status	No	
Use Quantity Ranges Based Statuses Only	No	If set to 'No', custom stock status set for product will show up if no range status found for particular product.
Activate rules for Quantity Range Status	No	
Display Icon Only (No Status Text)	No	Display only icon and no custom status text on the product view and product list pages.
Enable 'Back In Stock' Alert for Out of Stock Configurable Items	Yes	
Show Out of Stock Configurable Attributes	Yes	If set to 'Yes', out of stock configurations will be displayed in the drop-downs of configurable products with no possibility to purchase.
Change Default Configurable Product Status	Yes	

Callouts:

- It is possible to display custom stock statuses only for "out of stock" products.** (Points to the 'Display Custom Stock Status for "Out of Stock" Items Only' setting)
- Please go to Stores -> Configuration -> Amasty Extensions to specify general extension settings.** (Points to the top right of the settings area)
- If you would like to use only automatic, range based statuses, set this option to "Yes".** (Points to the 'Use Quantity Ranges Based Statuses Only' setting)
- Custom Stock Status** (Green box around the section title)
- To display only icons for stock statuses (without text), set this option to "Yes".** (Points to the 'Display Icon Only (No Status Text)' setting)
- It's possible to change product statuses for configurable products.** (Points to the 'Change Default Configurable Product Status' setting)

Custom Stock Status

Choose whether to show custom stock statuses on

- Product list page;
- Shopping cart;
- Order Confirmation Email.

General

Display Settings

Display Custom Stock Status On Product List Page

Display Custom Stock Status in Shopping Cart

Will display custom stock status for items in shopping cart.

Show Custom Status In Order Confirmation Email

6. 'Text field' and 'Date' attributes in statuses

You can use any 'Text field' and 'Date' product attributes in custom stock statuses.

To do this please add code of the attribute to the status like this:

Back in stock on {eta}

Manage Quantity Ranges

Quantity From	Quantity To	Custom Stock Status	Stock Status Rule	Remove
<input type="text" value="0"/>	<input type="text" value="1000"/>	<input type="text" value="Available {tomorrow}"/> ▼	<input type="text" value="rule_2"/> ▼	<input type="button" value="X"/>

On front end the code will be replaced with the attribute value for this product.

Custom stock status on product pages.
