# 1. Duplicate Categories Button

The screenshot shows the Magento 2 admin interface for editing a category named 'Training'. The left sidebar contains navigation menus for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, and System. The main content area is titled 'Training' and includes a search bar, a notification bell with '6', and a user profile for 'admin'. Below the title, there are buttons for 'Delete Category', 'Duplicate Category' (highlighted with a green box), 'Reset', and 'Save Category'. A callout bubble points to the 'Duplicate Category' button with the text: 'You will find 'Duplicate Category' button when editing a category.' Below the buttons, there are options for 'Add Root Category' and 'Add Subcategory'. The category tree on the left shows a hierarchy starting with 'Default Category (1181)', followed by subcategories like 'What's New (0)', 'Women (0)', 'Men (0)', 'Gear (46)', 'Collections (13)', 'Training (6)', 'Video Download (6)', 'Promotions (0)', and 'Sale (0)'. The 'Training (6)' category is selected. The main editing area has tabs for 'General Information', 'Display Settings', 'Custom Design', and 'Category Products'. The 'General Information' tab is active, showing fields for 'Name' (Training), 'Is Active' (Yes), 'URL Key' (training), and 'Description'. A checkbox for 'Create Permanent Redirect for old URL' is checked. A rich text editor is visible at the bottom of the description field. A callout bubble points to the 'Training (6)' category in the tree with the text: 'To duplicate a category, please go to Product -> Categories. Then select a category you want to duplicate.'
