Leave empty to use the product page title

Chronological order [store view]

No

Facebook AppID - For a proper extension performance, please visit a Facebook Developers to create an App ID.

Review Title - Choose a name for comments and reviews block.

Reviews per Page - Set the appropriate amount of comments per single product page.

Chronological Order - Select *Yes*, to display comments in a chronological order.
No - to display the newest first.

Display Options

Block Width (px) [store view]	632
No default styles [store view]	No ▾
Custom CSS [store view]	amfbreview.css

Block width (px) - Set an appropriate width of the comments' block in pixels.

**No default styles** - Choose whether to use default CSS styles or set a **Custom CSS**.

When you finish with the configuration, you have one more block (e.g. *Facebook Reviews*) next to the blocks with *Details*, *More Information*, and site *Reviews*.

To post a review, a customer has to log in with Facebook account.

Also post on Facebook - Customers can share their opinions with friends and duplicate their reviews to the their Facebook feed.
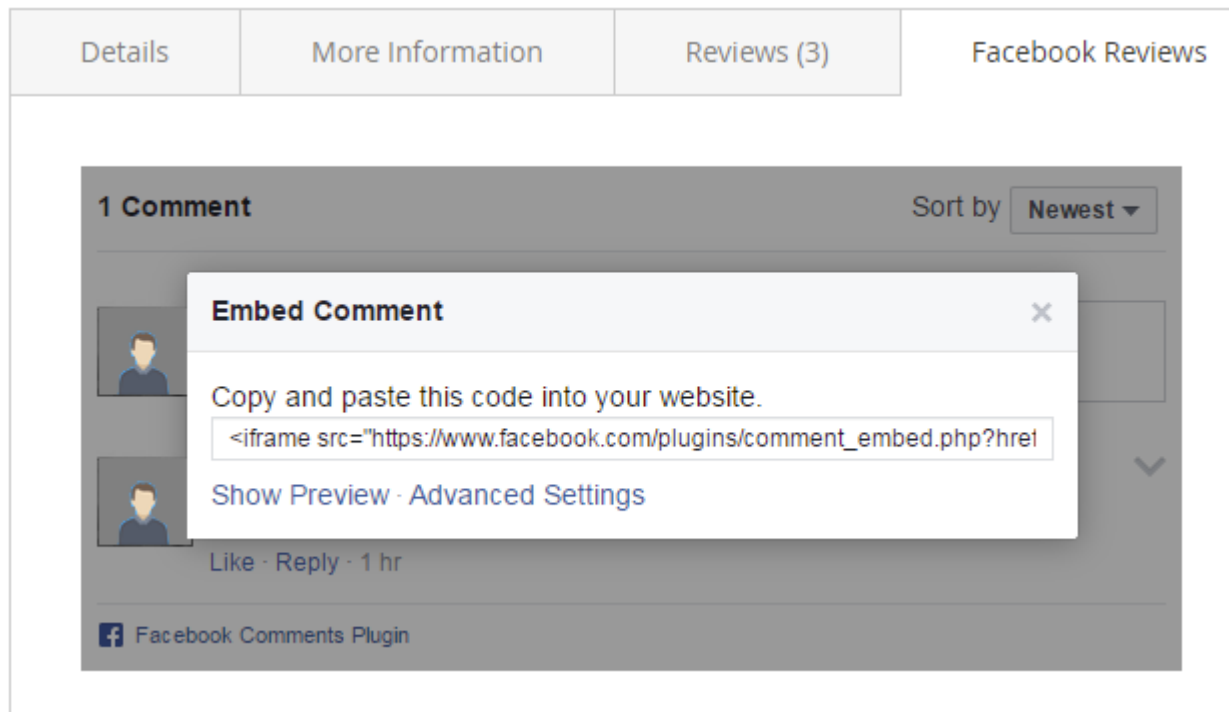

John Smith

Nice one! have been wearing this for years!

Facebook Comments Plugin

When you want to *Embed* a comment, you can use a preview and advanced settings to customize it, then share.

Sort by Newest

It is also possible to sort comments, while on the front-end. Display *Newest* reviews or display reviews chronologically, depending on your demands.

Thank you!
