Manage Coupon Codes

The extension adds a new tab to a shopping cart price rules page where you can:

- Import coupons;
- Generate coupons using a custom template;
- Generate coupons according to specific settings;

*Please make sure you've enabled the '**Specific Coupon**' setting in the Rule Information tab before starting to generate and import coupons.*

2. Import Coupons

Manage Coupon Codes

Import Coupons

Delete Existing Coupons ▼

CSV File No file selected.
CSV File Structure: Coupon Code *, Created, Uses, Times Used
Each coupon code on a new line
* - mandatory

Delete Existing Coupons

If you would like to delete previously generated or imported coupons during current import, please set this option to Yes.

CSV File

To import coupon codes choose the CSV file with codes and then click the **Import** button. Place each code on a new line.

Please click [here](#) to download an example of a CSV file with coupons.

3. Generate Coupons by Template

Specify settings in this tab to automatically generate coupons according to your custom template.

Generate Coupons by Template

Coupon Qty *

Delete Existing Coupons ▼

Template *
L - letter, D - digit
e.g. PROMO_LLDDD results in PROMO_DF627

Coupon Quantity

Specify the number of coupons you want to generate.

Delete Existing Coupons

In case you need to remove all previously created promo codes during the autogeneration process, enable this option.

Template

Specify custom template for coupons generation.

3. Generate Coupons by Template

Search [Reset Filter](#) Export to: CSV

<input type="checkbox"/>	Coupon Code	Created	Uses	Times Used
<input type="button" value="Any"/>	<input type="text"/>	From <input type="text"/> <input type="button" value="Calendar"/> To <input type="text"/> <input type="button" value="Calendar"/>	<input type="button" value=""/>	From <input type="text"/> To <input type="text"/>
<input type="checkbox"/>	TEES_EL649	Oct 7, 2016, 1:46:37 PM	Yes	1
<input type="checkbox"/>	TEES_FR362	Oct 7, 2016, 1:46:37 PM	No	0
<input type="checkbox"/>	TEES_SU895	Oct 7, 2016, 1:46:37 PM	No	0
<input type="checkbox"/>	TEES_KT745	Oct 7, 2016, 1:46:37 PM	No	0
<input type="checkbox"/>	TEES_KW324	Oct 7, 2016, 1:46:37 PM	No	0
<input type="checkbox"/>	TEES_AL298	Oct 7, 2016, 1:46:37 PM	No	0
<input type="checkbox"/>	TEES_EL753	Oct 7, 2016, 1:46:37 PM	No	0

See the example of promo codes generated according to the specified template.

You can **export** created promo codes to CSV or XML files right from the grid.

4. Generate Coupons

Automatically generate coupons according to specific settings.

Generate Coupons

Coupon Qty *

Delete Existing Coupons ▼

Code Length *
Excluding prefix, suffix and separators.

Code Format * ▼

Code Prefix

Code Suffix

Dash Every X Characters
If empty no separation.

Coupons Quantity - Indicate the number of coupons you want to generate.

Delete Existing Coupons - Enable the option in case you want to delete all previously created coupons during new coupons generation process.

Code Length - Specify the number of characters for promo coupons.

Code Format - Choose one of 3 options for a code format:

- Alphanumeric (letters+numbers);
- Alphabetical (letters only);
- Numeric (numbers only);

Code Prefix - Set an additional code prefix that will be used before the generated code.

Code Suffix - Specify a custom code suffix used after each generated promo code.

Dash Every X Characters - This option lets you separate your promo code with a dash. Specify an interval for dash separation.

4. Generate Coupons

Subtotal	\$78.00
Shipping & Handling	\$10.00
Discount (SUMMER_UX397)	-\$11.70
Grand Total	\$76.30
Total Paid	\$0.00
Total Refunded	\$0.00
Total Due	\$76.30

On the Order Details page you'll find all necessary order-related information including the coupon usage.

6. Share Coupons via URLs or Banners

To give codes via URLs/banners please add a code of the kind: **?coupon=XYZ-987** to the URL of any page on your site.

Please replace 'XYZ-987' with the actual coupon code.

E.g. Let's say you have a page <http://yourwebsite.com/any-landing-page.html>. After you add the coupon it will look like this: <http://yourwebsite.com/any-landing-page.html?coupon=XYZ-987>.

You can use such coupon links for banners, so customers will get discounts right after clicking on a banner (for instance, in a shopping cart).

Thank you!
