2. Settings: Product

SEO Rich Data

Save Config

Product	
Enabled	<input type="text" value="Yes"/> [STORE VIEW] <small>▲ See http://support.google.com/webmasters/answer/1146750</small>
Container Selector	<input type="text" value=".product-view"/> <small>▲ You can specify chain of css selectors (only id, class attributes and tag names are allowed)</small>
Price Container	<input type="text" value=".price-box"/> [STORE VIEW] <small>▲ You can specify chain of css selectors (only id, class attributes and tag names are allowed)</small>
Name Selector	<input type="text" value=".product-shop .product-name"/> [STORE VIEW] <small>▲ You can specify chain of css selectors (only id, class attributes and tag names are allowed)</small>
Description Selector	<input type="text" value=".short-description .std"/> [STORE VIEW] <small>▲ You can specify chain of css selectors (only id, class attributes and tag names are allowed)</small>
Price Including Tax	<input type="text" value="Yes"/>

Specify CSS selectors to add rich data to page elements.

For the next three fields specify CSS selectors of HTML elements that contain product info.

In search results you can display the product price including tax or the price excluding tax.

3. Settings: rating & breadcrumbs

Reviews Rating	
Enabled	<input type="text" value="Yes"/> [STORE VIEW] <small>▲ See http://support.google.com/webmasters/answer/146645</small>
Show Total Count for	<input type="text" value="Votes and Reviews"/>

Breadcrumbs	
Enabled	<input type="text" value="Yes"/> [STORE VIEW] <small>▲ See http://support.google.com/webmasters/answer/185417</small>
Item Selector	<input type="text" value="li"/> [STORE VIEW] <small>▲ Relative to breadcrumbs block</small>
Item Link Selector	<input type="text" value="li a"/> [STORE VIEW] <small>▲ Relative to breadcrumbs block</small>
Title container Selector	<input type="text" value="li a, li strong"/> [STORE VIEW] <small>▲ Relative to breadcrumbs block</small>
Extend Breadcrumbs	<input type="text" value="Yes"/> [STORE VIEW]

You can choose whether to display votes or reviews, or both votes and reviews at the same time on Google search page.

These settings are quite complex from a programming perspective. If you need help in configuration, please [create a support ticket](#).

4. Settings: organization & category

See how to configure organization mark up here <http://support.google.com/webmasters/answer/146861>

Organization		
Enabled	<input type="text" value="Yes"/>	[STORE VIEW]
	▲ See http://support.google.com/webmasters/answer/146861	

Category Page		
Enabled	<input type="text" value="Yes"/>	[STORE VIEW]
	▲ Show average products rating and minimal price at the bottom of category page	

This feature lets you display the average product rating and minimal price in search results as well as at the bottom of each category page on your site.

5. Settings: search box

Search Box

Enabled [STORE VIEW]

▲ Display search input box for home page in Google search results

Switch this option to 'Yes' to display sitelinks search box in Google search results.

7. Twitter summary cards example

The screenshot shows a tweet from the account **East India Tea Company @EastIndiaTea**, posted 5 hours ago. The tweet text reads: "Blog post: Check Out Our Newest Tea: Earl Greyest, from New Zealand: bit.ly/Earl-Greyist". Below the text is a summary card for the same account. The card title is "Welcome Our Newest Tea Flavour: Earl Greyest!". The card text describes Earl Grey tea as a blend with a distinctive flavour and aroma derived from bergamot orange. To the right of the text is an image of a white cup of Earl Grey tea on a saucer. Below the card, the tweet shows 74 retweets and 23 favorites, along with a row of user avatars. At the bottom, the timestamp is "5:41 PM - 9 Jul 13 (GMT-05:00)" and there is a "Flag media" link.

Now followers can see additional info in tweets: custom field text, product image and description

8. Settings: rich pins

SEO Rich Data

Product	
Enabled	<input type="text" value="Yes"/> [STORE VIEW]
	▲ See http://support.google.com/webmasters/answer/146750

Set product rich data to "Yes" and save the settings.

Visit [Rich Pins Validator Tool](#) in order to validate your store. Enter your product page url and click Validate

Apply for Rich Pins:

Once your Rich Pins are validated, validate one correctly marked up URL from your website and click 'Apply.' Once you apply, someone from our team will email you about the status of your Rich Pins within a few weeks.

<input type="text" value="Enter a valid URL"/>	<input type="button" value="Validate"/>
--	---
