# 1. HTML5 flipping book: front end examples

This is how Html5 flipping book looks like on a separate page

User Guide: [Html5 Flipping Book](#)

Support: <http://amasty.com/contacts/>

# 1. HTML5 flipping book: front end examples

The screenshot shows a Magento e-commerce website interface. At the top, there is a search bar with the text "Search entire store here..." and a "Search" button. Below the search bar are links for "My Account", "My Wishlist", "My Cart", "Checkout", and "Log In". A language selector shows "Your Language: English". The main navigation bar includes "Electronics" and "Apparel". The content area is titled "Magazine" and features social media icons for Facebook, Twitter, and Google+. The featured article is titled "ButerFly Collection" and includes a large image of a butterfly-themed dress by Luly Yang. A text block reads: "I just got an email by Ophelia Blaimer, one of my favorite Dimal Couture designers based in Munich with her latest creations for Oktoberfest 2009!". Below the text is a grid of smaller images showing various dresses. A speech bubble on the right contains the text: "Flipping book content. You can add video, text, images or attach pdf files".
