Form Lines

Name	CSS id	Order	<input type="button" value="Delete Line"/>
Line 2	line20	20	

Field	Order	Default	Rewrite	Remove
coupon	10	fill in below:	<input type="checkbox"/>	<input type="button" value="Remove Field"/>
name	20		<input type="checkbox"/>	<input type="button" value="Remove Field"/>
email	30		<input type="checkbox"/>	<input type="button" value="Remove Field"/>

Choose fields to add to the line.

Name	CSS id	Order	<input type="button" value="Delete Line"/>
Line 1	line10	10	

New lines can be added and ordered without editing the existing ones.

5. Insert forms into any CMS Page

Form Information

General
Titles
Form Layout
Embedding

Edit Form

CMS Pages

CMS Embedding Code

```
{{block type="amcustomform/form" name="amcustomform.form" form_id="2"}}
```

Copy this code into CMS Page Editor to insert form into any CMS page

Templates

Template Embedding Code

```
<?php echo Mage::app()->getLayout()->createBlock('amcustomform/form', 'amcustomform.form', array('form_id' => 2))->toHtml() ?>
```

Copy this code into CMS Page Editor to insert form into any CMS page

Templates

Template Embedding Code

```
<?php echo Mage::app()->getLayout()->createBlock('amcustomform/form', 'amcustomform.form', array('form_id' => 2))->toHtml() ?>
```

Insert this code into *.phtml template directly to display form in any block.

Use this code to add your newly created form to CMS.

```
{{block type="amcustomform/form" name="amcustomform.form" form_id="1" focus="1"}}
```

- Use *focus="1"* to activate the form right after the customers load the page.

- Use *focus="0"* not to activate the form right away. (e.g. the form is at the bottom of the product page – and the customers have to check the product info first and then go to the form).

CMS Pages

CMS Embedding Code

```
{{block type="amcustomform/form" name="amcustomform.form" form_id="1" focus="1"}}
```

Copy this code into CMS Page Editor to insert form into any CMS page.

Templates

Template Embedding Code

```
<?php echo Mage::app()->getLayout()->createBlock('amcustomform/form', 'amcustomform.form', array('form_id' => 1, 'focus' => 1))->toHtml() ?>
```

Insert this code into *.phtml template directly to display form in any block.

A code to add your form to CMS.
