Pre-Order Warning
Message to be displayed with order information

When set to 'Yes', the pre order warning will be displayed before customer selects any product configuration. The option works for configurable, bundle and grouped products if all their components have pre order status.

Additional Options

Detect Complex Products Which Consist only of Pre-Order Components
If set to 'Yes', the extension analyzes your configurable, bundle and grouped products on category pages to indicate preorder status before customers choose any option in cases, when all components have 'Preorder' status. Please be aware this may cause huge performance degradation for larger catalogs.

2. Pre Order Column on the Order Grid

Quickly find pre orders using a filter.

School books, camp gear and yoga clothes get along just fine in the all-purpose Driven Backpack. Crafted with tough polyester ripstop fabric, it's outfitted with rubberized end panels and padded, adjustable shoulder straps. The roomy main compartment features molded foam pockets that host everything you need.
