

Amasty

For more details see the [Product Attachments](#) extension page.

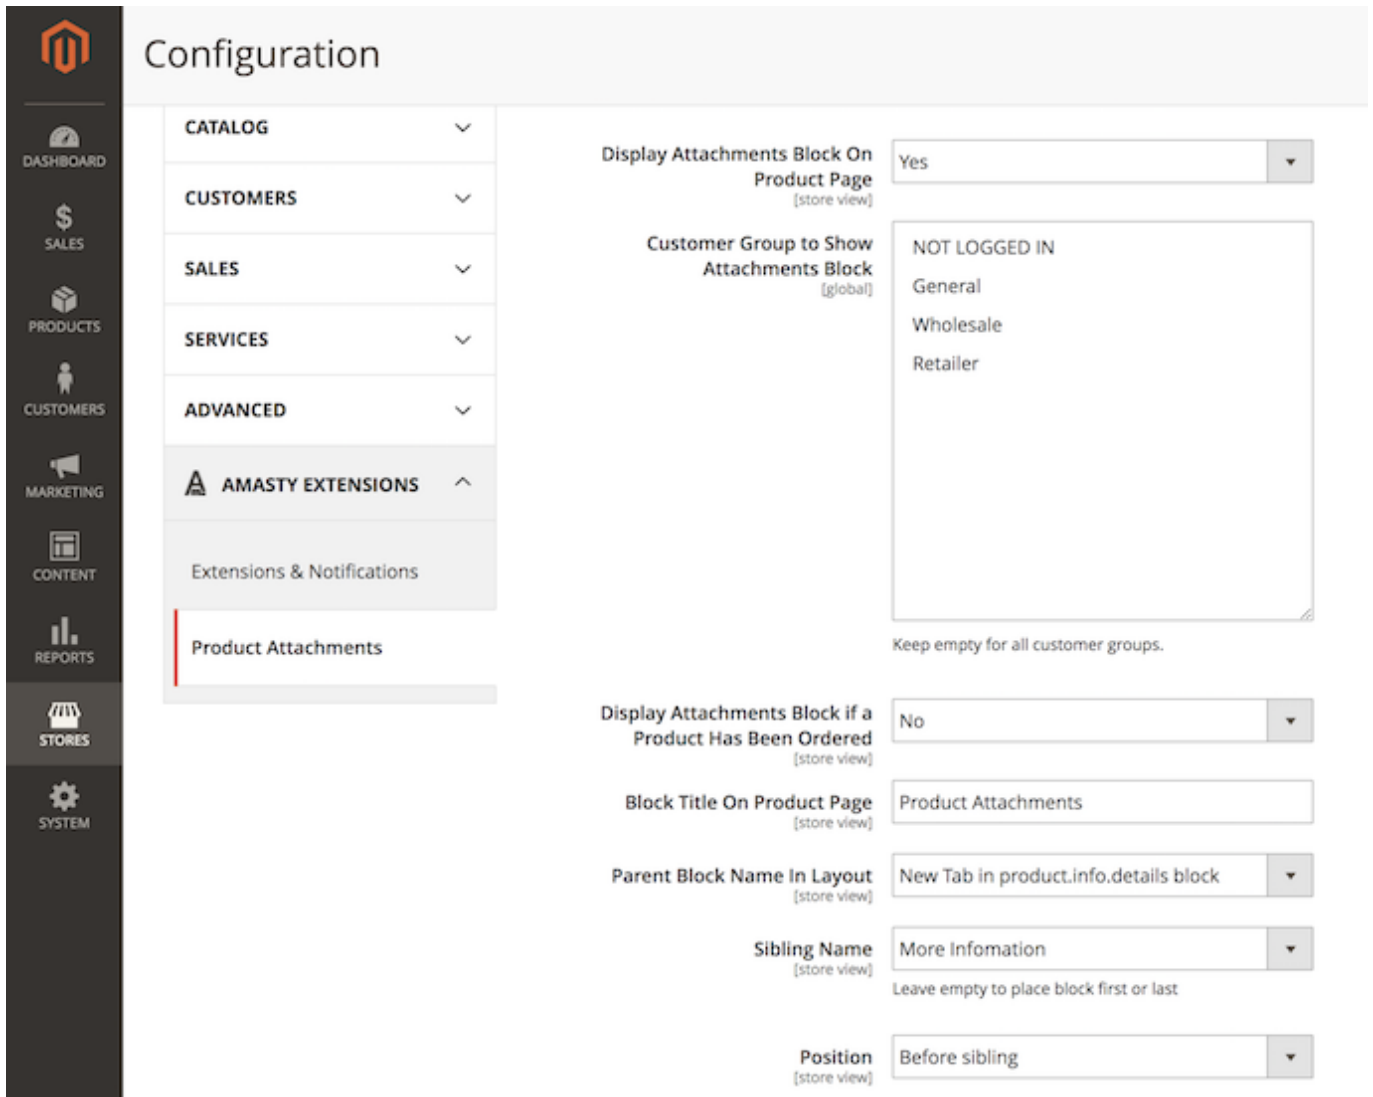

Product Attachments for Magento 2

Provide customers with additional details about the products they purchase in your store. The extension allows you to add manuals, licenses, warranties and other downloadable information right on product pages. Equip your attachments of any format with catchy icons to attract customers' attention.

- Add files using handy drag-and-drop mechanism
- Upload the unlimited number of attachments
- Support for any file types
- Track attachments downloads
- Equip files with attractive icons

General Settings

To configure general extension settings please go to **Stores → Configuration → Amasty Extensions → Product Attachments**.

Configuration

- CATALOG
- CUSTOMERS
- SALES
- SERVICES
- ADVANCED
- AMASTY EXTENSIONS
 - Extensions & Notifications
 - Product Attachments

Display Attachments Block On Product Page [store view]: Yes

Customer Group to Show Attachments Block [global]: NOT LOGGED IN, General, Wholesale, Retailer

Keep empty for all customer groups.

Display Attachments Block if a Product Has Been Ordered [store view]: No

Block Title On Product Page [store view]: Product Attachments

Parent Block Name In Layout [store view]: New Tab in product.info.details block

Sibling Name [store view]: More Information

Leave empty to place block first or last

Position [store view]: Before sibling

Display Attachments Block On Product Page — enable the attachments block display on the frontend and backend product pages;

Customer Group to Show Attachments Block — specify customer groups for which the attachments will be visible;

Display Attachments Block if a Product Has Been Ordered — enable this option if you want to show attachments block only after the product is ordered;

The option doesn't hide all attachments for all products by default. To enable the option for specific products you need to switch the corresponding option on a particular product page as well.

Block Title On Product Page — specify the name of the attachment block for product pages;

Parent Block Name In Layout — specify where to display product attachments (either in a new tab or in any existing layout block);

Sibling Name — define the block position on a page;

Position — choose to place attachments in a new tab in the product info bar - specify its position in the bar;

The screenshot shows the Amasty Configuration interface. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, and System. The main area is titled 'Configuration' and shows 'Store View: Default Config'. A left-hand menu lists categories: GENERAL, CATALOG, CUSTOMERS, SALES, SERVICES, ADVANCED, and AMASTY EXTENSIONS. The 'AMASTY EXTENSIONS' section is expanded to show 'Extensions & Notifications' and 'Product Attachments'. The 'Product Attachments' settings are displayed on the right, including 'Attachments Block', 'Import Settings' (with a text input for 'Directory for Upload by FTP' set to 'amasty/amfile/import/ftp'), and 'Additional Settings' (with a dropdown for 'Autodetect File Mime Type on Download' set to 'Yes').

Directory for Upload by FTP — specify the directory to upload attachments via FTP;

Autodetect File Mime Type on Download — set the option to **Yes** to let customers open attachments in a new browser window instead of downloading them.

Adding Files to a Product Page

To add new files for a specific product please go to **Products** → **Catalog** and open the necessary product.

Expand the **Product Attachments** tab.

Label	File Name	Attach File or Enter Link	Customer Group	Show only if a Product has been Ordered	Visible
<input type="text" value="promo-bags.jpg"/>	<input type="text" value="promo-bags.jpg"/>	Upload File  promo-bags.jpg (79 KB) <input type="button" value="Browse Files..."/>	NOT LOGGED IN General Wholesale Retailer	No <input type="button" value="v"/>	Yes <input type="button" value="v"/> 
<input type="text" value="bag-warranty.txt"/>	<input type="text" value="bag-warranty.txt"/>	Upload File  <input type="button" value="Browse Files..."/>	NOT LOGGED IN General Wholesale Retailer	No <input type="button" value="v"/>	Yes <input type="button" value="v"/> 

Alphanumeric, dash and underscore characters are recommended for filenames. Improper characters are replaced with '_'.

You can specify custom name for this tab by modifying the **Block Title On Product Page** option on the [General Settings](#) page.

Click the **Add New File** link to add a new attachment. Then, please specify the following attachment details:

Label — fill in the label that will be displayed on the frontend as the name of the attachment;

File Name — specify a separate file name for your internal use;

Attach File or Enter Link — attach a file either by adding it from your computer or by specifying the link;

Customer Group — specify a customer group for which the attachment will be visible on the frontend;

Show Only if a Product has been Ordered — enable this option if you want to display product attachments only when the product is ordered;

Visible — modify this option to hide or display the attachment.

If you show two or more attachments on a product page, you can specify the order for displaying files. Just drag the attachments to place them according to your needs.

Adding Files from the Grid

With the extension, you can add product attachments right on the grid. A new **Upload Attachment** column should appear on the product grid. Just drag-and-drop the file on the special area to upload it.

IMPORT

- Import Csv
- Uploaded Files
- Upload Files

Upload Csv File

1. Upload your files to folder /var/www/vhosts/demo.amasty.com/product-attachments-m2-new/pub/media/amasty/amfile/import/ftp
2. Prepare csv file with columns ([Download File Example](#)):
 - file name (required)
 - product sku (required)
 - file title (optional)
 - sort order (optional)
 - customer group ids (optional) should be separated "-"
 - show only if a product has been ordered (optional)
 - visible (optional)
 - url (optional)
3. Upload CSV file in a tab "Import CSV"

Click or drop file here

- Upload a CSV file in the **Import CSV** tab.

When creating a CSV file you can use the following attributes:

- file name
- product SKU
- file title
- sort order
- customer group IDs
- show only if a product has been ordered
- visible
- URL

Only the **File Name** and **Product SKU** attributes are required. Other attribute are optional.

You can see all uploaded files in the **Uploaded Files** tab. You can use the **Actions** dropdown menu to delete multiple files.

Placing Attachments

You can place attachments in any location. Please add this PHP code to any template of the product page:

```
<?php
echo $block->getLayout()->createBlock(
'Amasty\ProductAttachment\Block\Catalog\Product\Attachment', '',
['data'=>['custom mode'=> true, 'skip_head'=>true]]
)->toHtml(); ?>
```

Find out how to install the Product Attachments extension via [Composer](#).
