The screenshot shows the 'New Product Icon' configuration page in the Magento Admin Panel. The page has a dark header with the 'Magento Admin Panel' logo and a navigation menu with items like 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Reports', and 'System'. Below the header, there are buttons for 'Back', 'Reset', 'Save', and 'Save and Continue Edit'. The main content area is titled 'General' and contains the following fields:

- Type \***: A text input field containing 'mp4'. Below it, a small triangle icon indicates a tooltip: 'Separate multiple extensions by comma'.
- Image**: A 'Choose File' button followed by the text 'mp4-icon.jpg'.
- Active**: A dropdown menu currently set to 'Yes'.

Three callout boxes provide additional instructions:

- A callout pointing to the 'Type' field: "Specify the type of files, for which the new icon will be applied. You can specify several file extensions separated by comma."
- A callout pointing to the 'Image' field: "Upload the icon image."
- A callout pointing to the 'Active' dropdown: "This option will activate or deactivate the icon on product page."
