

Two Factor Authentication

Magento Extension User Guide

Official extension page: [Two Factor Authentication](#)

User Guide: [Two Factor Authentication](#)

Support: <http://amasty.com/contacts/>

Table of contents:

1. Configuring the extension..... 3
2. Configuring two-factor authentication for a user..... 4
3. Testing two-factor authentication login..... 8

1. Configuring the extension

Please open Admin panel -> System -> Configuration -> Two-Factor Authentication

Two-Factor Authentication

General

Enable Two-Factor Authentication	Yes	[STORE VIEW]
Ip White List	192.168.100.150	[STORE VIEW]

▲ Specify IP addresses separated by comma

Set "Yes" to enable two-factor authentication

Insert trusted IP addresses where verification code is not needed

2. Configuring two-factor authentication for a user

Go to System -> Permissions -> Users to change user permissions

Users + Add New User

Page 1 of 1 p Reset Filter Search

ID	User Name	First Name	Last Name	Email	Status
6	admin	admin	admin	admin@example.com	Active
7	user	User	User	user@example.com	Active

Choose user account where you want to add two step authentication

2. Configuring two-factor authentication for a user

The screenshot displays a web application interface with a navigation menu at the top containing: Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System (highlighted in orange). On the left, a sidebar titled "User Information" lists: User Info, User Role, REST Role, and Two-Factor Settings (with a document icon). An orange callout bubble points to "Two-Factor Settings" with the text: "Click on Two-Factor Settings to view authenticator configuration options". The main content area is titled "Edit User 'admin'" and features a "General" section with the following settings:

Enable Two-Factor Authentication	<input type="checkbox"/>
Status	Not Configured

An orange callout bubble points to the checkbox with the text: "Tick on the checkbox to open authentication settings for this user". Below the "General" section is a "Configuration" section.

2. Configuring two-factor authentication for a user

General	
Enable Two-Factor Authentication	<input checked="" type="checkbox"/>
Status	Not Configured

Configuration	
Secret Key	N2EMB2OBN72IU3L Insert this secret key into Google Authenticator or scan QR code to generate Security Code
QR Code	
Security Code	<input type="text"/> Scan QR code above with Google Authenticator application, then enter the security code in this field and click Check Code link Check Code

Open your [Google Authenticator application](#) and register the login by scanning the QR Code or entering the Secret Key

Once your Google Authenticator application is properly configured it will show a one-time passcode that changes every 30 seconds. Input it in the *Security Code* field, and click [Check Code link](#)

2. Configuring two-factor authentication for a user

General	
Enable Two-Factor Authentication	<input checked="" type="checkbox"/>
Status	Configured

Configuration	
Secret Key	MD3D7OK575JLCHAD Insert this secret key into Google Authenticator or scan QR code to generate Security Code
QR Code	
Security Code	<input type="text"/> Scan QR code above with Google Authenticator application, then enter the security code in this field and click Check Code link Check Code Verified!

Press *Save User* button. If the entered verification code is correct, the form will save. The user will now be required to enter one-time security code when logging in admin panel

3. Testing two-factor authentication login

To test two-factor authentication login please :

1. Log out of the admin area
2. Go to the administrative login screen
3. Login with the account you have configured to use two-factor authentication

The screenshot shows the 'Log in to Admin Panel' form. It includes a vertical 'Magento' logo on the left. The form has three input fields: 'User Name:', 'Password:', and 'Security Code'. Below the 'Security Code' field is a link for '[Forgot your password?](#)'. An orange 'Login' button is positioned to the right of the 'Security Code' field. At the bottom of the form, a copyright notice reads: 'Magento is a trademark of Magento Inc. Copyright © 2015 Magento Inc.'
