Table of contents:

1. Introduction	3
2. Creating advert blocks	4
3. Creating placeholders	6
4. Unique features for some placeholder positions	10

First of all we recommend to have a look at the list of available placeholders and decide in which of them you would like to display ads or other necessary information.

Placeholder Information

Create Placeholder Settings

Placeholder Position

- Bottom of the left column
- Above the footer links
- Above the main content block
- Above the main menu
- Bottom of the left column
- Bottom of the left column on category page
- Bottom of the right column
- Bottom of the right column on category page
- Fullscreen popup on each page
- Fullscreen popup pre-checkout
- Top of the left column
- Top of the left column on category page
- Top of the right column
- Top of the right column on category page
- Under the footer links
- Under the main menu
- Under the main menu on homepage

To do this please login to admin panel, browse to CMS -> Ultimate Advertising Suite -> Placeholders and click 'Add New Placeholder' button. In the dropdown you will see available placement options. Please review them and decide which of them you would like to use for ads/information. Please be aware that you can use several ads for each placeholder and rotate them. Also you can display a different block (or blocks) in a placeholder for each store view.

2. Creating advert blocks

To create an ad or information block please browse to CMS -> Ultimate Advertising Suite -> Advert Blocks.

Click 'Add New Advert' to create an advert block.

Advert Title	Enabled	Last Modified	
above menu	Yes	2011-01-19 12:59:54	41
under menu 1	Yes	2011-01-19 12:58:58	13
above footer	Yes	2011-01-19 12:48:45	3
under footer	Yes	2011-01-19 12:48:45	3
middle column	Yes	2011-01-19 12:59:54	41
popup	Yes	2011-01-19 12:45:43	4
top left column	Yes	2011-01-19 12:59:55	26
top right column	Yes	2011-01-19 12:59:55	36
bottom left column	Yes	2011-01-19 12:59:55	26
bottom right column	Yes	2011-01-19 12:59:55	36
under menu 2	Yes	2011-01-19 12:59:54	17
under menu 3	Yes	2011-01-19 12:59:45	11

Here you can see how many times each block was displayed on front end.

2. Creating advert blocks

Edit Advert "

Back Reset Delete Advert Save Advert

Indicate block title, create the block content, using either text or images or both, enable or disable the block.

Once you've finished the block creation, click 'Save Advert' button to save it.

If you prefer to use html instead of wysiwyg editor, press 'Show/Hide Editor' button.

Placeholder Details

Title *	<input type="text" value="under menu"/>
Alias *	<input type="text" value="under-menu"/> <small>▲ Will be used for css style postfix</small>
Position	<input type="text" value="Under the main menu"/>
Store View *	<div><p>All Store Views</p><p>Main Website</p><p>Main Store</p><p>English</p><p>French</p><p>German</p></div>
Width	<input type="text" value="950px"/> <small>▲ px or % required, for example: "200px". Leave empty if width is not required or specified within advert block content. If set, placeholder will be set to this specific width. Adds "width: xxx" to css style.</small>
Height	<input type="text" value="20%"/> <small>▲ px or % required, for example: "200px". Leave empty if height is not required or specified within advert block content. If set, placeholder will be set to this specific height. Adds "height: xxx" to css style.</small>
Enabled	<input type="text" value="Yes"/>

Please do not use spaces for aliases, because aliases are used for css styles and therefore in some cases site design may get corrupted.

Select store views, at which you would like to display this ad/information.

When indicating width/height parameters in pixels, please type 'px' right after the digits. For percent indicating use '%' symbol. Please be aware that the limits indicated here will apply only to text within blocks (images will not be resized).

If at some point you would like to disable this ad, please set the 'Enabled' option to 'No'.

3. Creating placeholders

Then Click 'Save Placeholder' to save the placeholder.

4. Unique features for some placeholder positions

Placeholder Information

General Information

Active Adverts

Configuration: Categories

For some placeholder positions (for example 'bottom of the left column on category page') you will have an option to specify categories in which the placeholder will be displayed. Please be aware that indicating the root category does not equal to indication of all its subcategories, therefore each subcategory, where you would like to display the blocks, needs to be ticked.

Categories Placeholder Applies To

- Root Catalog (0)
- Furniture (6)
- Electronics (42)
 - Cell Phones (6)
 - Cameras (8)
 - Accessories (3)
 - Digital Cameras (5)
 - Computers (28)
 - Build Your Own (3)
 - Laptops (4)
 - Hard Drives (4)
 - Monitors (4)
 - RAM / Memory (3)
 - Cases (2)
 - Processors (4)
 - Peripherals (4)
- Apparel (66)
- Household Items (0)

4. Unique features for some placeholder positions

Placeholder Information

- General Information
- Active Adverts
- Configuration: Fullscreen**

New Placeholder Back Reset Save Placeholder

Fullscreen Configuration

Display Only On Homepage	<input type="text" value="Yes"/>
Display Once Per Visitor	<input type="text" value="Yes"/> <small>▲ If set to "No", advertisement will appear with each page load.</small>
Effect Duration	<input type="text" value="3"/> <small>▲ In seconds. Can be decimal. Set to 0 for instant display.</small>

For 'Fullscreen popup on each page' position you will be able to specify whether the popup should come out only on the home page. If set to 'No', it will be displayed on all pages.

If set to 'Yes', the popup will be displayed only once per browser session to each customer. If to 'No', it will be launched each time a customer loads a page.

Entrance animation effect is available. If you indicate '3', it take the popup 3 seconds to fully fade in. Decimal numbers also can be used.

Specify '0' (zero) to disable the effect (the popup will come out immediately).

4. Unique features for some placeholder positions

Placeholder Information

Configuration: Fullscreen Pre-Checkout

New Placeholder Back Reset Save Placeholder

Fullscreen Pre-Checkout Configuration

Display Once Per Visitor: Yes
▲ If set to "Yes", advertisement will appear at the first checkout for current user session.

Effect Duration: 0.7
▲ In seconds. Can be decimal. Set to 0 for instant display.

For 'Fullscreen popup pre-checkout' position you will be able to specify whether the popup should be displayed only once per browser session to each customer. If to 'No', it will be launched each time a customer goes to checkout.

Entrance animation effect is available. If you indicate '0.7', it take the popup 0.7 seconds to fully fade in.

Specify '0' (zero) to disable the effect (the popup will come out immediately).

Thank you!
