1. Zoomer for main image and thumbnails

Please login to admin cp , browse to System -> Configuration -> Zoom Pro

The screenshot shows the Magento Admin Configuration page for the 'Zoom Pro' extension. The left sidebar shows the navigation menu with 'Zoom Pro' selected under 'AMASTY EXTENSIONS'. The main content area is titled 'Zoom Pro' and contains two sections: 'Zoomer for main image' and 'Zoomer for thumbnails'. The 'Zoomer for main image' section has three settings: 'Enable "Zoom" feature' (set to 'Yes'), 'Type of zoom' (set to 'Inside'), and 'Action for main image change' (set to 'On Click'). The 'Zoomer for thumbnails' section has one setting: 'Enable "Zoom" for thumbnails' (set to 'Yes'). A 'Save Config' button is located in the top right corner. Three callout boxes provide additional instructions: one points to the 'Enable "Zoom" feature' dropdown, another points to the 'Type of zoom' dropdown, and a third points to the 'Enable "Zoom" for thumbnails' dropdown.

Zoom Pro

Current Configuration Scope: Default Config [Manage Stores](#)

Configuration

AMASTY EXTENSIONS

General

Zoom Pro

Zoomer for main image

Enable "Zoom" feature: Yes ▲ If set to 'No', default Magento zoom tool will be used.

Type of zoom: Inside

Action for main image change: On Mouse Hover [STORE VIEW]

Zoomer for thumbnails

Enable "Zoom" for thumbnails: Yes [STORE VIEW] ▲ Will be used only if option 'Action for main image change' is set to 'On Click'

Save Config

To enable 'Zoom' feature please set this option to 'Yes'. If you set it to 'No' default Magento zoom will be used.

You can choose whether to use inside or outside zoom. See the next page for the examples.

Choose if you want to show thumbnails as the main picture on mouse hover or on click.

Set this option to 'Yes' to use zoomer for thumbnails.

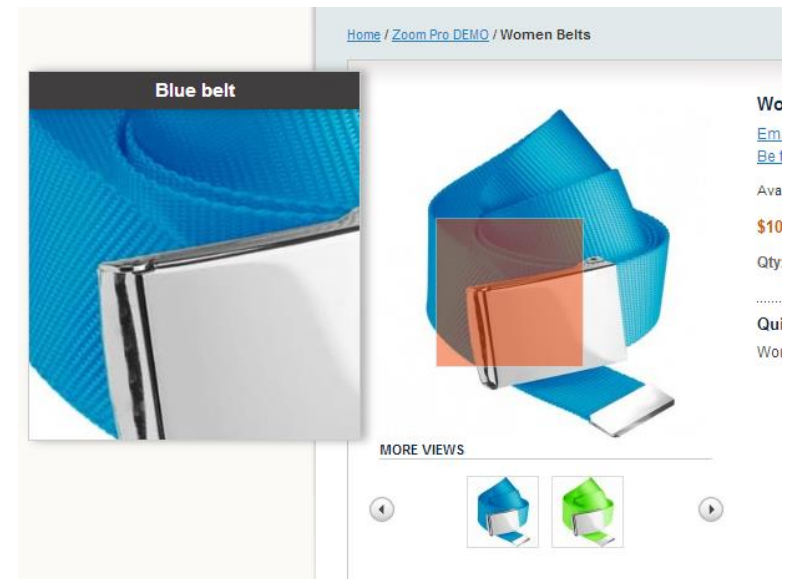

Attention. This feature will only work when option 'Action for main image change' is set to 'On Click'

1. Zoomer for main image and thumbnails

Example of inside zoom

Example of outside zoom

2. Zoomer with type "Outside"

Settings for zoomer with type "Outside"

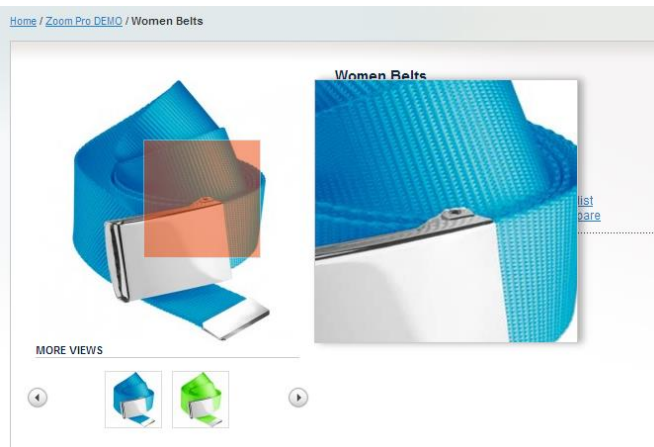

Zoom Window position	<input type="text" value="To the Left"/>	[STORE VIEW]
Zoom Window margin, px	<input type="text" value="To the Right"/>	[STORE VIEW]
Zoom Window width, px	<input type="text" value="265"/>	[STORE VIEW]
Zoom Window height, px	<input type="text" value="265"/>	[STORE VIEW]
Show Product Name	<input type="text" value="Yes"/>	[STORE VIEW]
Use Tint Effect	<input type="text" value="No"/>	[STORE VIEW]

Choose position for the zoom window and its size.

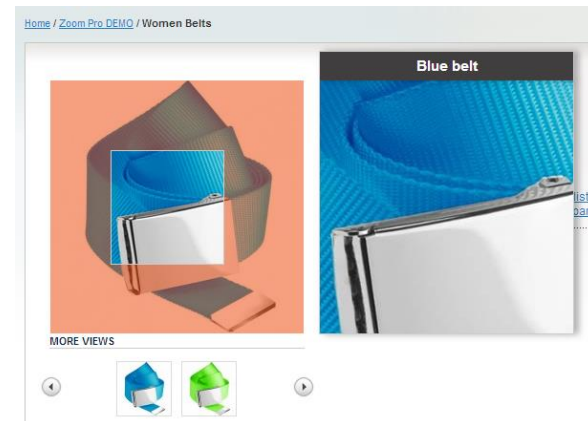

IMPORTANT! Size of the zoom window must be less than the size of the image, uploaded for a product.

Decide whether to show product name and use tint effect or not.

Outside zoomer without tint effect and product name.

Outside zoomer with tint effect and with product name shown.

3. Zoomer on category page

Settings for zoomer on category grid		
Enable "Zoom" on category grid	<input type="text" value="Yes"/>	[STORE VIEW]
Zoom Window position	<input type="text" value="To the Right"/>	[STORE VIEW]
Zoom Window margin, px	<input type="text" value="To the Left"/>	[STORE VIEW]
Zoom Window width, px	<input type="text" value="265"/>	[STORE VIEW]
Zoom Window height, px	<input type="text" value="265"/>	[STORE VIEW]
Show Product Name	<input type="text" value="No"/>	[STORE VIEW]

You can set up several parameters for zoomer on category grid: window position, window size, product name display.

Example of zoom on a category page.

Lightbox

Enable "Lightbox" feature	Yes	[STORE VIEW]
Circular lightbox	Yes	[STORE VIEW]
Title position	Outside	[STORE VIEW]
	Float	[STORE VIEW]
	Inside	[STORE VIEW]
	Outside	[STORE VIEW]
	Over	[STORE VIEW]
Animation effect	Effect of disappearance	[STORE VIEW]
Enable thumbnail helper	Effect of disappearance	[STORE VIEW]
	Effect of motion	[STORE VIEW]
	None	[STORE VIEW]

Set this option to 'Yes' to enable 'Lightbox' feature.

If you set this option to 'Yes', product images will be displayed on loop.

Please choose the position of the product title in the lightbox window.

The effect will apply, when you slide the images in lightbox.

Set this setting to 'No', if you want the thumbnails to appear under the lightbox window.

5. Example of lightbox

The screenshot displays a Magento storefront with a lightbox open for a blue belt. The lightbox features a large image of the belt and a 'Next' button. An orange callout box points to the 'Next' button with the text 'Outside title position'. Another orange callout box points to a row of color swatches at the bottom with the text 'Thumbnails helper'.

6. Carousel for thumbnails

Carousel feature for thumbnails		
Enable "Carousel" feature	Yes	[STORE VIEW]
Count of visible items in carousel	Two	[STORE VIEW]
Circular carousel	Yes	[STORE VIEW]
Carousel position	Under the main image Under the main image To the left of the main image	[STORE VIEW]

Please, choose one, two or three items to appear in the thumbnail carousel and specify the carousel position.

7. Image size settings

Define the size of the thumbnail image

Image Size Settings (System)		
Size of the thumbnail image (px)	<input type="text" value="56"/>	[STORE VIEW]
	▲ 56 pixels by default. Do not modify this value until you really need to.	
Width of the preview image (px)	<input type="text" value="265"/>	[STORE VIEW]
	▲ 265 pixels by default. Do not modify this value until you really need to.	
Height of the preview image (px)	<input type="text" value="265"/>	[STORE VIEW]
	▲ 265 pixels by default. Do not modify this value until you really need to.	

Define the size of the thumbnail image.

IMPORTANT. Make sure that the picture you upload for a product is larger than preview image on product page. Zoomer will work only if this condition is met.

Thank you!
